I posted this on Facebook seven days ago...

Students in the Clark County school district have been struggling to learn and engage with their teachers during the pandemic. While parents were supportive of “two weeks to slow the spread,” they did not anticipate that would turn into a year of learning loss, and the tragic deaths of 24 Clark County students to suicide.

We have learned a lot about COVID-19 over the last year, and medical studies show that this disease, even the Delta variant, is not deadly to children. The CDC reports that for the week of July 31 the rate of hospitalization with Covid for children 5 to 17 was 0.5 per 100,000, which would amount to roughly 250 patients in the entire United States.

In spite of these numbers, Governor Sisolak has decreed that every child should be in a mask at school.

Wearing a mask to stop a virus is akin to using a chainlink fence to stop a sandstorm. So Joe, we really need to get Sisolack out of the office and it's not just about these ridiculous mandates either, he's playing havoc with Nevada's economy... Thanks Joe for your endeavor, keep up the good work. SG, Silver Springs.

Vaccines were not rolled out for Covid, Covid was rolled out for the vaccines. Be warned, injecting anyone with an experimental drug violates the Nuremberg Code.
