Subject: Covid Vaccine Mandates
Date: Thursday, August 19, 2021 7:17:13 AM

Good morning,

Please do not mandate vaccines for our college students. One's health should absolutely be a personal choice and students certainly should not have to choose between their education or their health. Additionally, please follow the science, not the CDC. The CDC has lost a tremendous amount of credibility over its handling of the COVID response. Please, I urge you to take 2 minutes of your time to watch this doctor's testimony below. There are many others out there like him that have been trying to educate the public about what they need to know about this virus, the vaccine, etc - it's based on scientific evidence, not his opinion.

Again, please, I am begging you, do not mandate vaccines for the college population. If you do, my children will have to leave the state. I am UNLV alumni by the way and practice as a registered nurse at a local hospital.

Thank you for your time,
Candice Halverson RN
