Attention Joseph Filippi, Nevada State Board of Health, Staff, and Governor Sisolak:

It has been brought to our attention that there is a proposal to mandate the experimental Covid 19 vaccines in our NSHE students, and possibly our K-12 students. As a legal US citizen, a UNLV graduate, a professional, and a parent- I do not give my consent to allow the Nevada State Board of Health to mandate experimental Covid 19 vaccines from our students.

There is no significant data proving these injections outweigh the adverse side affects of the Covid 19 related fatality percentage. The FDA has yet to even approve these experimental vaccines. And yet, the Board wants to mandate them?

Just as one's religious, or health concerns are the right of the individual, so should this experimental vaccine be. If the State were to mandate this it is violating the legal, lawful, and just rights our country stands upon. Education and freedom. The right to choose. And the legal rights of parents/guardians to make that choice with their children/students.

I oppose this experimental vaccine mandate.

Thank you,
Robyn Travaglia
