Subject: The use of experimental medicines in school (CCSD)
Date: Thursday, August 19, 2021 12:16:09 PM

Hello. My name is Tina Miranda and I STRONGLY oppose mandatory use of the COVID19 experimental jab, it is not a vaccine as it is being called ;as it DOES NOT eradicate the virus and it also produces illness. Please put my opposition in record.

Please note:

The students in Nevada deserve to maintain their CONSTITUTIONAL guaranteed right to say "NO!" to drugs for any reason. It is a direct violation of the Nuremberg Code to force anyone to participate in a medical experiment (and with the non-FDA approved drugs, these "vaccines" qualify as experimental). It is a violation of the 1st amendment to require anyone in our society and especially at publicly-funded schools to participate.

There is not one documented legitimate case where a student has caused illness on a teacher that resulted in death. If you would like more documented information from peer group studies that have been censored by the mainstream media, I would be more than happy to send over to you. I would also suggest reviewing VAERS which documents death and adverse effects due to this experimental COVID jab, however only about 1% of the cases are actually reported, which means there are so many more innocent victims out there who haven't reported their event with the experimental jab. My child is not a lab rat.

Respectfully,
Tina Miranda
