---

This email is to inform you, that if you vaccinate my child without my consent, you are in violation of the law, the constitution, and the Nuremberg Code. If you vaccinate my child without my consent, I will lawfully hold you and the state of Nevada accountable.

The township of Pahrump has been voted as a town that operates under the constitution and not under the rules and orders of the governor (who by the way, I also know, stole the election).

You and all representatives of the local and federal government, are arrogant and full of pride, and think you live above the law. But, let me say, you do not live above God, and He sees everything you are doing. If you do not stop, all of you will be held accountable.

Melissa Langhorst
