Subject: 20 Aug Mtg: NV State Board of Health intimidation of Jab
Date: Thursday, August 19, 2021 3:02:10 PM

Please consider this e-mail as my personal objection to the prerequisite of vaccination for Covid-19 for attending all Nevada Systems of Higher Education schools.

Please read the following:

The vaccine is not 100% effective, nor are the masks, so the presence of unvaccinated students on campus, even with masks will result in entirely preventable transmissions of this deadly disease from students to other students, faculty, and staff.

Signed by Nevada Faculty Alliance.

I am not a college graduate but even I can read the contradictions in the above paragraph. Please, listen with care and vote against this foolish, unnecessary prerequisite for admission into a school of higher learning. Vote with common sense, not with fear of what does not exist.
