Please keep our kids in school!! I am a parent of 3 with my 2 daughters still in school. They need to be in a school! We cannot mentally handle anymore online school. I understand keeping our kids safe however I do follow the science and that this is a virus and it keeps mutating and changing and there is no way of stopping that. I will always do what I think best for my children, and that is my choice not anyone else's. I choose to keep my girls in school! Please for the mental health of children and parent keep our schools open!

Thank you for your time
