Subject: A parents plea.
Date: Friday, August 20, 2021 5:38:17 AM

I pray today we can come to a better solution. A solution where parents have a right to choose, a right to choose what we believe is best for our children. Our children deserve better than this. Our children should not be mandated to be vaccinated or even masked against a virus that is over 98% treatable and beatable. We must all rise against vaccine and mask mandates. We are creating more harm for our children the longer we allow this evil to take place. I ask today as a parent that the board find their humanity again. Unmask our children now and please do not mandate vaccines. Worldwide we are witnessing the collapse of the public school system, we could stop that collapse. It starts with allowing American citizens the right to choose what we believe is best for our families again. Uniting as one and giving people the choice to choose. FREEDOM is everything, we must not take it for granted or let it go. We are called to be leaders and to rise up against a terrible and dark future ahead. Unmask our children and No vaccine mandates. Thank you and God bless us all.
