Subject: Vaccine mandate
Date: Friday, August 20, 2021 8:08:47 AM

It is our body and the bodies of our children and should be our choice what we inject into them. There is no talk of testing for antibodies which makes your mandates even more suspect. My whole family had had the virus and we refuse to ruin our natural immunity by injecting anything into our bodies. Please stand up for the many who simply do not want this vaccine and oppose mandatory vaccination.

Thank you

Matt Ryan.
