Good morning,

My name is Rebecca Fox and I am a parent of a 16 year old here in Las Vegas that attends a Ccsd school. I do not co-parent with the government nor the school board and I DO NOT allow for you or anyone else for that matter, make decisions regarding my child's health. This decision is for her father and myself. For you to try to force mandatory vaccines on children who are less likely to contract "covid" is insane. Stop trying to push your agenda on to impressionable children. They are not a political pawn. The FDA has yet to approve the shot as there is not enough research. Quit using our children.

Sincerely

Rebecca Fox
