Subject: Mandatory Vaccines
Date: Thursday, August 19, 2021 9:35:18 PM

I am opposed to having mandatory vaccines for college students. It is a personal decision that all students have the right to choose the shot or not. It is against our constitutional rights to impose a mandatory requirement to have the shot. Dr. Malone who is. The maker of the mRNA components of the shot is against mandatory vaccines for everyone especially young people. Check out YouTube on Dr. Malone and Dr. Navarro and listen to them with the real medical information, not the lies from Fauci, and the CDC.

Please consider the long term effects on our young people that could detrimental to their health and cause premature death. Please do not require this mandate for college students.

Sincerely
Mariann and John Humphrey
