Subject: Comment for meeting on 8.20.21
Date: Thursday, August 19, 2021 8:08:27 PM

To whom it may concern,
what follows is my written public comment for tomorrow's meeting.

State Board of Health members;

I am just one of many that is against your proposal to force college students to have the covid vaccine in order to attend classes.

Such a ruling is unconstitutional and even goes against the Nuremberg code. College students are not in the age bracket that is even at risk . ALL of us have the freedom to make our own personal decisions regarding what medical treatments we choose. Many have decided to wait before getting this experimental vaccine. It appears we are all part of the experiment. We were told no animal tests were done but we have discovered they were done but abandoned because the animals died.

Forcing vaccinations on people or making the punishments so harsh as to prohibit them making a living is violating their rights and their personal freedoms. Having to reveal their medical records with a vaccine passport (no matter what you want to call it) is also going against HIPPA. Do you no longer care about that?

For these reasons I am totally against any mandates requiring college students to show proof of vaccination.

If you truly care about the well being of college students why don't you make the low cost therapeutics available to them? These drugs have been around for years and you should know that.

I hope you will each exhibit moral courage and stand up for the rights of the students and uphold our Constitution. Do you truly care for the health of everyone or do you just do what you are told and follow the money?

The slogan on your own page says "Helping people; it's who we are and what we do" If you proceed with mandating these vaccines for anyone it proves that statement is a lie and you should be honest and remove it.

It is time for each of you individually to make a choice. Whose side are you on? You can't just hide as part of a group decision. Are you going to choose to uphold our individual freedoms? Show us what kind of people you really are. Your choices will affect the direction of this country, so please search your hearts and do the right thing.
