Date: Thursday, August 19, 2021 6:08:40 PM

To the Nevada Board of Health regarding Action Item 441A.755:
This action item is unconstitutional and you must vote no to mandatory vaccines in order to attend Nevada colleges and universities. Since when do we require people, just by the fact that they breathe and are alive, to inject a foreign substance into their bodies? And this is an experimental drug, not FDA approved to boot! We as Nevadans will not sit still on this one. You are stepping over the bounds of your authority when it comes to invasion of our bodies. And for a /virus/variant that has a 0.0014% death rate. You cannot, in good conscience, vote yes on this. You must vote no on this nonsense.
