**Subject:** Vaccine requirements for college students  
**Date:** Thursday, August 19, 2021 5:32:08 PM

---

Nevada Board of Health,

It is a travesty to require anyone, and in particular, young college students to have the so-called vaccination shots in order to attend college in Nevada. The "vaccines" have already been proven to be less than the advertised effectiveness and healthy young people DO NOT transmit the virus. If you make it a requirement, you are violating the 1st Amendment as well as the Nuremberg Code. Please do not put yourself of the wrong side of history simply because those with an agenda are pushing you to do so.

Sincerely,  
George & Darla Lee  
Sparks, NV
