**Description of idea/comment:**

I am not surprised that y'all wasted 3 hours and came up with a vote within 15 mins knowing you were going to force students to get the shot. What's even stupid is the fact you said November 1st is the "deadline" which means they were be past halfway through the school year and all the students who don't want to get the shot will have to drop their courses and all that money which is thousands wasted. You think y'all are the almighty, but nothing but little you know what's. When

I was in school at UNR, I got the swine flu. I was down and out and living in Canada Hall. All they did was locked me up in my room, my assignments sent to me and my food brought to me for a week. Then I was ok. More people got the swine flu than they have with this. You think that shot is the almighty cure or prevention when it isn't. It's a temporary thing. I'm sure every single one of you is at home celebrating thinking you did right, but didn't do squat except ruin people's semesters. Nevada is already under a mask mandate and y'all say masks work. So then what's the point of the shot when at the beginning all you Democrats which I bet all of the board members are were against the shot. Y'all just came into power and saying so as you are told or you are denied your education. Dumbing down Nevadans and not giving a crap about people's rights. My quest is how can you by LAW force people to get the shot? Why didn't y'all vote and think about this before schools opened and everyone is moved in? None of you think and none of you are right. No one is right. Remembering roughly 11% of Americans which may be lower because people have gotten it twice have contracted it. Y'all are freaking out over nothing and the shot isn't grantees. Wake up and stop thinking you are god. This virus will keep going as long as it wants and our bodies will defeat this as we naturally let our bodies do what they are designed to do.
