While I appreciate you are not the decision making authority, I must express my disgust and disdain for our “board of health”, obviously a group of appointed bureaucrats more interested in pushing a political agenda than what their titles might imply. These experimental drugs are poisoning millions of people across the planet and now the board members presume to hold the authority to poison our young people??? Obviously our “education system” is in dire need of full dismantling and restructuring.

Know this that those members exhibiting a blatant disregard for Our Constitutional Rights, will be judged fairly.

I am very strongly urging you to OPPOSE mandatory Covid-19 vaccines for our Nevada college students.

Our students deserve to maintain their constitutionally guaranteed right to say "no" to drugs for any reason

It is a violation of Nuremberg Code to force anyone to participate in a medical experiment (and with non-FDA approved drugs, these vaccines qualify as experimental).

It is a violation of the 1st amendment to require anyone to violate his or her religious beliefs in order to participate in society and especially at publicly-funded schools.

AND do not ignore the fact that this is a direct violation of the HIPAA protected rights of ALL Americans AND it is blatant discrimination!
