Subject: Vaccine mandates
Date: Monday, August 16, 2021 9:12:00 PM

My name is mariluz perkins and I strongly oppose the mandatory use of the COVID 19 vaccine on our Nevada students. Please put my opposition in record. Please note: This is unconstitutional for It violates our 1st amendment right as we believe this vaccine is derived unethically. Thus, this so called vaccine, does not prevent transmission nor illness. The adverse affects reporting system has reported many deaths and even debilitating illnesses that I have seen first hand. I am a registered nurse and am fully aware of its affects and risks. I also will add that should you feel the necessity to mandate this illegal action, I will be forced to act legally in any way necessary to protect my children and help fight for all our children. This is also a violation of the Nuremberg code that sets a standard for ethical principles in human experimentation. This vaccine is neither fda approved and still remains in experimental stage.

Please take this into serious account!

Sincerely,
Mariluz perkins
