NEWBORN BLOOD SCREENING (LCB R088-20RP1) Public Hearing

*There must be a clear opt-out for mothers/parents before expanding this program to include every infant. There must also be a mechanism for the protection of the private genetic / DNA data of citizens (babies) for those who choose not to opt out.*

#### COLLEGE & UNIVERSITY STAFF & STUDENT VACCINE MANDATES

*I oppose medical mandates! There is NO scientific evidence showing that masks reduce transmission of viral particles. The covid vaccines DO NOT prevent transmission, infection or illness. There are risks associated with these medical interventions; where there is risk there must be full informed consent and free choice. Those who decide to wear masks and/or take covid shots based upon their personal risk assessment are free to do so.*

*Dear Board of Health*

*Local public health decisions need to be made locally. In the event of future public health issues or emergencies, WE want our local officials to be able to make decisions based on what our community is experiencing and based upon what is best locally rather than centralizing these powers.*

My name is Ina Koleva-Vasileva

This is my testimony regarding the mandatory Covid-19 vaccination - I OPPOSE!

***I oppose medical mandates! There is NO scientific evidence showing that masks reduce transmission of viral particles. The covid vaccines DO NOT prevent transmission, infection or illness. There are risks associated with these medical interventions; where there is risk there must be full informed consent and free choice. Those who decide to wear masks and/or take covid shots based upon their personal risk assessment are free to do so.***

***I arrive in USA in 2012 to search freedom and better life and now my heart ache that this county is loosing the pillars holding it and making it great!***

***We must keep sacred the right to be lords of our own bodies!***

***Thank You!***
