I do not agree with the State Board of Health wanting to give the covid shot to all people. It appears that Nevada is behind in all the updated medical data stating that these shots are killing humans, causing physical damage to the human body, that the ingredients are unknown and that this is still an experimental drug.

I understand that forcing this shot on a human being against their will is a violation of the Nuremberg code. The result of this violation by any person or facility is execution as a crime against Humanity. I would suggest you let each individual make their own choice for themselves and their family.

Board of Health:

I am beginning to think you all need BEHAVIORAL HEALTH TREATMENT.

Do you all not know you can die from the jab? You can die from covid with the jab. Many are being injured and their lives are forever changed.

This jab is as USELESS as WE the PEOPLE paying you all a salary as you come up with this insistent push of a jab jab jab jab. IT CLEARLY doesn't work and neither does the mask.

Your tests are useless and they have inflated numbers to promote fear. My neighbor just tested positive for covid with a stuffy nose. SERIOUSLY, it is a cold.

I was recently in Idaho and Texas. Do you realize people are living life mandate free? 44 states are mandate free from masks, yet here is NV and several have refused mandated jabs but you all just want to keep pushing it.

YOU VOTED and it was NOT VOTED in, You don't keep voting until you get your little tyrannical ways.

Just how much are you all being paid by GAIN OF FUNCTION FAUCI?

One day, I hope you all get what you deserve and will be punished with crimes against humanity.

Until then, STOP WITH YOUR LUDICROUS NON SCIENTIFIC mandates on jabbing people with poison for a virus with a 99% survival rate.

SINCERELY and QUITE DISGUSTED WITH NEVADA,

Pam Bennetts

TO WHOM IT MAY CONCERN:

I couldn't help but notice your ridiculous (and completely wrong) statements on the "Effects of the Regulations for Mandatory Vaxxes". I am vehemently opposed to any medical mandates (remember Nazi Germany?) and your stated that these regs "will not have any impact" on businesses and the public?

What about employers who have to lay off people who refuse the vax? Think about hospitals (so not enough staff to care for truly sick people), rehab centers, rest homes, restaurants, grocery stores. These are not businesses we can live without.

What about people laid off for not taking the shot? We, as a nation, have the lowest morale in decades. Kids are committing suicide at an alarming rate, adults are turning to alcohol and drugs, physical abuse is on the rise, homelessness is up.

What about whole businesses having to close their doors because the owners refuse the vax?

What about the only people who seem to contract COVID now are those who are vaxxed? Everyone I know who has contracted the disease has been vaccinated.

When you can demonstrate in double-blind, peer-reviewed studies that these shots (not vaccinations, for true vaccinations eradicate the disease) are free of complications with myocardia, blood clots, nerve disorders, compromised immune systems, to name just a few contraindications, then you can say it would have no adverse impact on businesses or the public.

There hasn't been enough long-term testing or double-blind, peer-reviewed studies to warrant this mandate.

Medical mandates have no business in a free society.

Obviously, vaccinations are not effective because vaccinated individuals are contracting Covid. People who have already had a case monitored by the state such as myself, have never become sick again. I was sick with Covid in Nov. 2020. Therefore, mandated vaccinations are absurd and will only cause more public reaction and problems than they would solve. Instead, mandate effective drug treatment protocols for all who become sick, and then we will all have natural immunity.

Sincerely,
Mary Ann Polish
