PROGRAMS

NEW PROGRAMS: No new programs were created.

PROGRAM CHANGES: Staff are back in the office full time with safety measures in place.

Service Needs/Recommendations

There is a shortage of qualified behavioral health providers, specifically in the areas of nursing, social work, psychiatry and psychology.

Agency Concerns/Issue

INPATIENT: The community ER wait list continues to be a priority. We continue to work collaboratively with our community partners. Over the last quarter, there has consistently been an average of 9 individuals who sit and wait to be transferred to a mental health facility on any given day.

We continue to see longer lengths of stay in the hospital due to lack of appropriate placements in the community.

OUTPATIENT: The availability of Community Based Living Arrangements (CBLAs) continues to be a challenge.

Lake's Crossing Center Agency Director's Report

AGENCY DIRECTORS REPORT

AGENCY: Lake's Crossing Center

SUBMITTED BY: Theresa Wickham

DATE: 10/20/2021

Reporting Period: 9/30/2021

STAFFING

Positions filled: 3 - We recently filled the following positions: Administrative Assistant II, 2 Psychiatric Nursing II positions.

Vacancies: 11: 4 Forensic Specialist positions (in the recruiting process now), 4 Licensed Psychologist I positions, 1 Social Worker II (in the recruiting process now), 1 Psychiatric Caseworker (in the recruiting process now), 1 Psychiatric Nurse II position (filled but no start date)

Difficulties filling: Nursing positions are difficult to fill due to compensation disparities with hospitals in the local area. Two issues with filling the Forensic Specialist/Mental Health Tech positions are successful completion of a background check and the POST certification physical fitness exam. The Psychologist positions have a salary disparity and the Forensic Psychologist specialized training as difficulties for recruitment. The salary disparity is not unique to Lake's Crossing Center but is a statewide issue in state employment recruitment for Licensed Psychologists. It is a more unique issue to the Reno area with its proximity to California and the higher salaries offered in California. The higher rent/housing prices in Reno when compared to the Las Vegas area are also a factor. An additional factor that has occurred after 9/30/21 is the COVID-19 vaccine mandate.

CASELOADS/WAITING LISTS

Program: Inpatient

Census: 82

Average Length of Stay per client type:

415 = 75 days 425 = 103 days

461 & NGRI = 2012 days (one 425 client transitioned to a 461 client)

Total Admissions 1st quarter: 31

Pending List: 33 from Washoe and the rural counties (all are in the process of being offered a bed, obtaining medical clearance, or awaiting transport). Several of these are on medical holds d/t pre-existing conditions. We currently have CCDC planes filled for November and are working on the December transports.

Program: Outpatient Competency Evaluations Caseload: Average 51 evaluations monthly. Total for 1st Quarter was 152 completed outpatient evaluations.

Program: Outpatient

Caseload: Four conditional release clients.

PROGRAMS

The smoke from the fires kept many activities indoors this summer, but the clients enjoyed the karaoke contests, board game tournaments and designing and creating cornhole games. Courtyard access on clear days was enjoyed by many clients. Arts and crafts were completed in the Creative Arts Therapy classroom and clients bicycled across America in the Health and Fitness Programs room.

Service Needs/Recommendations

Budget requests were worked on this summer with every department head being tasked with planning ahead and formulating budget items. Items being reviewed for inclusion in the budget are personnel positions, medical and maintenance equipment, an ADA transport van, building maintenance and replacement equipment and vehicles.

Agency Concerns/Issue

Continuing recruitment difficulties for psychologists, psychiatrists, social workers and front line staff are a concern as staffing are leaving positions here at Lake's Crossing Center for higher paying employment elsewhere

Available bed space continues to be a concern. One of our Clark County long term clients was transferred to Stein this summer as a bed became available down there. We also had one long term client be successfully placed in a group home on Conditional Release. Our long-term clients are aging and are requiring more community medical care related to their chronic medical conditions. Each bed at Lake's Crossing Center taken by a long-term client is 3-4 evaluations lost each year.

Stein Forensic Hospital Agency Director's Report

AGENCY DIRECTORS' REPORT

AGENCY: Stein Forensic Facility

SUBMITTED BY: Stanley Cornell

DATE: 11/10/2021

Reporting Period: 9/13/2021

STAFFING

Positions filled: Since the last report. Stein hired 4 Forensic Specialists, leaving 17 FS-III vacancies and no FS-IV vacancies. Nursing had no new PN II hires with 5-PN II vacancies. One PN-III vacancy was filled in September, leaving no PN-III vacancies.

Other vacancies: Currently the Social Work Department has no vacancies.

Difficulties filling: Stein continues to host physical fitness trials for potential candidates twice a month. The time for completing the hiring process is taking 3-months in most cases. There are 17 Forensic candidates assigned to Position Control Numbers working their way through the hiring process. Of this number, seven have tentative start dates between September 20th and October 18, 2021.

CASELOADS/WAITING LISTS

Program: Inpatient

Caseload: 79; Includes 4- Long Term Clients Committed under NRS 178.461. Two of these are currently out in the community on 461 conditional release agreements.

List of Commitments for Competency restoration pending bed offers: Variable-Beds offered to all clients committed under NRS 178.425 within 7 to 14 days upon receiving orders

Program: Outpatient

Caseload: Restoration 8; Pre-commitment evaluations 11 YTD

Waiting List: 2 Restoration referrals pending intake assessment

PROGRAMS

Seclusion and restraints -Stein continues to focus on the reduction of restraints overall through the therapeutic use of seclusion when indicated according to policy to reduce incidents of physical aggression, or self-harm. A debriefing and review process occurs for all incidents involving any form of restraints and/or seclusion. Manual holds measured in hours per 100 patient days for the period was .025. Mechanical restraints were .80 and seclusions were .415. The Stein Leadership oversight committee reviews all incidents involving a restraint, or restraint leading to a seclusion.

Service Needs/Recommendations

The ability to secure appropriate residential services and housing for long-term clients petitioning for conditional release is a barrier to this program. Long-term clients eligible to petition for conditional release occupy beds and other inpatient resources needed for competency restoration clients.

Agency Concerns/Issue

Consent Decree (expired 12/31/2020): All cases adjudicated under NRS 178.425 are offered beds on a priority basis. Referrals from Nye and Lincoln Counties for per-trial competency evaluations average one per month. Barriers to outpatient competency restoration are securing reliable language interpretation services, transportation, effective medication management coordination for clients with outside providers, and limited numbers of group education classes due to social distancing that has been in place.

PROGRAMS

New Programs: DRC Quality Assurance Department continues to recruit for new SLA and JDT providers. Since January 2021, DRC has approved 1 new JDT provider and 1 new Behavioral Support agency. DRC CS Psychologist continues to be short 1 full time Psychologist that is bilingual in Spanish and is actively recruiting for this position. All hiring as of COVID-19 pandemic has been based on HR allowance. During this review period, DRC has hired Service Coordinators, Administrative Assistants, Nursing staff and Quality Assurance staff. Program Changes: None

Service Needs/Recommendations

Desert Regional Center and other DS agencies continue to explore out of state agencies that support individuals with dual diagnosis, particularly with high level behavioral needs, to potentially provide this service in Nevada. Although, this population need amongst our 5000+ is relatively low, there is a need to improve support to these individuals. This information is consistent with previous agency reports. We (DRC/DS) have also collaborated with DCFS to create a multi-agency team that focuses on children support needs that have open cases with family services and DS or who may be eligible for DS services if they meet our eligibility standards.

Agency Concerns/Issue

DRC Community Services continues to have some difficulties with SLA provider capacity to support behaviorally complex individuals. We continue to work with DPBH and Family Services (for children) to approach this from a collaborative perspective. DRC also continues to have difficulty with hiring bi-lingual, Spanish speaking staff. In addition, DRC provider agencies are having difficulties in on-boarding new staff. Due to being unable to hire new staff and support new SLA and JDT placements, DRC's waitlist has grown, despite us having the funding to support some new SLA and JDT placements. We have also had some challenges with placing individuals in providers' SLA home's who are hospitalized with provider staffing shortfalls being a contributing factor. Currently, the JDT and SLA providers are working with our Quality Assurance department to assess if some provider standards can be loosened, specific to their staffing shortfalls.

AGENCY MANAGER'S REPORT

HCQC and /or CMS Survey /Visit	0	0	0	0	0	1

Comments:

- Census at the ICF is below what the ICF is licensed for. Due to high number of staff vacancies, in addition to home 1301 under ADA construction. There have been multiple informal referrals once staffing levels are where they need to be and ADA construction is complete the intake processes will be initiated. Did have one new admit in August filling last vacant bedroom.
- Interviews for the vacant Technician positions are happening and it appears as we are able to hire a staff, a current staff resigns/retires. Also finding during interview process many applicants either are no shows to the interviews or decline the position when offered. There are several interview panels monthly to fill the positions.
- One ICF Home is still under remodel to comply with ADA requirements which started on March 15, 2021 and continues, delay due in delivery of construction items (COVID delayed the delivery of part). At this time we are waiting of HCQC inspection/clearance to occupy. Once Home 1301 is occupied ADA construction will begin on the next home needing ADA remodel (3 homes remain).
- ICF Management Team / Governing Body has been meeting regularly to develop and implement a Covid19 Contingency Plan. Plan is fluid and changes as recommendations come from CDC, CMS, and NV Governor.
