

AGENCY DIRECTORS REPORT

AGENCY: Lake's Crossing Center

SUBMITTED BY: Theresa Wickham

DATE: 7/12/2021

Reporting Period: 6/30/2021

STAFFING

Positions filled: 4 - We recently filled the following positions: 2 Forensic Specialists and 1 part time psychiatrist.

Vacancies: 10: 1 Administrative Assistant II (currently being advertised), 2 Forensic Specialist positions (in the recruiting process now), 4 Licensed Psychologist I positions, 1 Social Worker II (in the recruiting process now), 1 Psychiatric Caseworker (in the recruiting process now), 2 Psychiatric Nurse II positions (in the recruiting process now)

Difficulties filling: Nursing positions are difficult to fill due to compensation disparities with hospitals in the local area. Two issues with filling the Forensic Specialist/Mental Health Tech positions are successful completion of a background check and the POST certification physical fitness exam. The Psychologist positions have a salary disparity and the Forensic Psychologist specialized training as difficulties for recruitment. The salary disparity is not unique to Lake's Crossing Center but is a statewide issue in state employment recruitment for Licensed Psychologists. It is a more unique issue to the Reno area with its proximity to California and the higher salaries offered in California. The higher rent/housing prices in Reno when compared to the Las Vegas area are also a factor.

CASELOADS/WAITING LISTS

Program: Inpatient

Census: average daily census = 81

Average Length of Stay per client type:

415 = 136 days 425 = 99 days

461 & NGRI = 1932 days (one 425 client transitioned to a 461 client)

Total Admissions 4th quarter: 44

Pending List: 19 from Washoe and the rural counties (all are in the process of being offered a bed, obtaining medical clearance, or awaiting transport). Several of these are on medical holds d/t pre-existing conditions. We currently have CCDC planes filled for July and are working on the August transports.

Program: Outpatient Competency Evaluations Caseload: Average 47 evaluations monthly. Total for 3rd Quarter was 142 completed outpatient evaluations.

Program: Outpatient

Caseload: Four conditional release clients.

PROGRAMS

April, May and June had our 20 long term clients continuing their own activities group and saw the continuation of the gardening therapy group start again with their gardening. We are also looking at expanding the gardening program by using the concrete raised garden beds in the courtyards. The Creative Arts group completed the first part of the artistic mural on the wall of the main courtyard. The mural provides an eternal garden even during winter months with the goal of the entire courtyard wall becoming a mural painted by the clients. Planning for board game tournaments and karaoke contest in the summer months has begun.

Service Needs/Recommendations

Day to day medication follow up is currently being monitored by staff psychiatrists and this could be handled by mid-level providers such as Physician Assistants or Advance Practice Registered Nurses who have additional certifications in psychiatry. It is recommended that two positions be created or petitioned for in the next Legislative session.

Agency Concerns/Issue

Recruitment difficulties for psychologists are a concern as psychologists are integral to the competency evaluation/restoration process here at Lake's Crossing Center. Competency evaluations require specialized training of the evaluators.

Available bed space continues to be a concern as our long-term clients continues to increase and the long-term clients currently occupy 20 of the beds with one in the queue having a Comprehensive Risk Assessment completed. Our long-term clients are also aging and are experiencing more chronic health issues related to aging. Each bed taken by a long-term client is 3-4 evaluations lost each year.

AGENCY DIRECTORS' REPORT

AGENCY: Stein Forensic Facility

SUBMITTED BY: Stanley Cornell

DATE: 9/13/2021

Reporting Period: 8/31/2021

STAFFING

Positions filled: Since the last report, Stein hired 6 Forensic Specialists, leaving 22 FS-III vacancies and no FS-IV vacancies. Nursing had no new PN II hires with 4-PN II vacancies. One PN-III vacancy was filled leaving no PN-III vacancies. There was also one PN-IV vacancy to fill.

Other vacancies: Currently the Social Work Department had one PCW vacancy to fill.

Difficulties filling: With Peace Officer training academies limiting classes and seats, recruiting for vacancies has focused on candidates who are currently POST certified. However, to rebuild our list, Stein continues to host physical fitness trials for potential candidates twice a month. The time for completing the hiring process is taking 3-months in most cases. There are 17 Forensic candidates assigned to Position Control Numbers working their way through the hiring process. Of this number, seven have tentative start dates between September 20th and October 18, 2021.

CASELOADS/WAITING LISTS

Program: Inpatient

Caseload: 76; Includes 3- Long Term Clients Committed under NRS 178.461. Two of these are currently out in the community on 461 conditional release agreements.

List of Commitments for Competency restoration pending bed offers: Variable-Beds offered to all clients committed under NRS 178.425 within 7-days upon receiving orders

Program: Outpatient

Caseload: Restoration 5; Pre-commitment evaluations 8 YTD

Waiting List: 4 Restoration referrals pending intake assessment

PROGRAMS

Seclusion and restraints -Stein continues to focus on the reduction of restraints overall through the therapeutic use of seclusion when indicated according to policy to reduce incidents of physical aggression, or self-harm. A debriefing and review process occurs for all incidents involving any form of restraints and/or seclusion. The rate of all restrains and seclusions for the reporting period is .24 per client/month. The Stein Leadership oversight committee reviews all incidents involving a restraint, or restraint leading to a seclusion.

Service Needs/Recommendations

The ability to secure appropriate residential services and housing for long-term clients petitioning for conditional release is a barrier to this program. Long-term clients eligible to petition for conditional release occupy beds and other inpatient resources needed for competency restoration clients.

Agency Concerns/Issue

Consent Decree (expired 12/31/2020): All cases adjudicated under NRS 178.425 continue to be offered beds within the 7-day mandate. Referrals from Nye and Lincoln Counties for per-trial competency evaluations average one per month. Barriers to outpatient competency restoration are securing reliable language interpretation services, transportation, effective medication management coordination for clients with outside providers, and limited numbers of group education classes due to social distancing that has been in place.

PROGRAMS

NEW PROGRAMS: No new programs were created.

PROGRAM CHANGES: Staff are back in the office full time with safety measures in place.

Service Needs/Recommendations

There is a shortage of qualified behavioral health providers, specifically in the areas of nursing, social work, psychiatry and psychology.

Agency Concerns/Issue

INPATIENT: The community ER wait list continues to be a priority. We continue to work collaboratively with our community partners. Over the last quarter, there has consistently been an average of 11 individuals who sit and wait to be transferred to a mental health facility on any given day.

We continue to see longer lengths of stay in the hospital due to lack of appropriate placements in the community.

OUTPATIENT: The availability of Community Based Living Arrangements (CBLAs) continues to be a challenge.

Number of Applicants found Eligible: 15

Number of Applicants found In-Eligible: 7

PROGRAMS

SRC continues to operate a pilot program with our sister agency – Lake's Crossing. We have opened an ISLA home that will have specialized training for staff to work with 2 individuals that are co-served by SRC and Lake's Crossing as part of the conditional release program. The team still meets frequently to monitor the progress of the home with the goal of integration into the community when conditional release has been fulfilled.

SRC is also looking at opening a pilot home for some of our individuals that need limited oversight and could transition into their own home or apartment but need some more ADL training and support. This home would be temporary in nature while they receive the necessary skills to live independently. Also by having the home under a provider they will be available for emergency calls if the need arises.

Service Needs/Recommendations

SRC has identified the current lack of SLA Intermittent Providers as a major problem area for the people we serve. Additionally, there is always a need for more Jobs and Day Training providers in the Washoe area. Currently we have more individuals than placements for this service need.

Agency Concerns/Issue

SRC has identified the need to work with JDT providers to increase capacity for supported employment in our community. The CMS final ruling will require DS to work with our JDT providers in re-vamping their programs to be more community based (as opposed to facility based). Our current JDT structure (facility based) does limit the number of people they can serve – our goal is to move toward a more community-based service system. We are also experiencing a shortage of JDT providers who can serve some of our more challenging behavior individuals and we have since started a waitlist. (2) DS providers express concern about the current provider rate (there was a rate increase during this last legislative session, however they still feel that it is not enough to remain competitive) and report that it is impacting their ability to recruit qualified employees. The 24-hour SLA providers report a high turnover rate which impacts consistency of supports offered to individuals served. (3) DS is experiencing a major shift in rental increase for homes and apartments in the Washoe County area. As major companies such as Tesla and Switch come into the area with an increased need for a labor force, prices have increased making it difficult to find homes that are aligned with what DS can support.

Additionally, due to the COVID-19 pandemic, SRC's service providers are struggling with staffing issues and several of our homes have been hit with Covid-19. As an agency we are managing as best as we can but are always mindful that our providers are working with extremely slim crews.

Critical Need: Due to staffing shortages in our area we have several providers who are on the brink of not being able to sufficiently staff their homes. They are utilizing overtime and many of their recruitment efforts are only bringing in a few staff. This need has been addressed with administrations and they are fully aware of the state of employment in Nevada.

Comments:

- Census at the ICF is below what the ICF is licensed for. Due to high number of staff vacancies, in addition to home 1301 under ADA construction. There have been multiple informal referrals once staffing levels are where they need to be and ADA construction is complete the intake processes will be initiated. Did have one new admit in August filling last vacant bedroom.
- Interviews for the vacant Technician positions are happening and it appears as we are able to hire a staff, a current staff resigns/retires. Also finding during interview process many applicants either are no shows to the interviews or decline the position when offered. We do have 5 new staff scheduled to start on Oct. 4, 2021. Another round of interviews scheduled for 9/20 and 9/21.
- One ICF Home is still under remodel to comply with ADA requirements which started on March 15, 2021 and continues, delay due in delivery of construction items (COVID delayed the delivery of part).
- Building 1300 remodel completed and is being used (two kitchens were removed to allow for a larger training and OT/PT therapy area).
- ICF Management Team / Governing Body has been meeting regularly to develop and implement a Covid19 Contingency Plan. Plan is fluid and changes as recommendations come from CDC, CMS, and NV Governor.

PROGRAMS

New Programs: DRC Quality Assurance Department continues to recruit for new SLA and JDT providers. Since January 2021, DRC has approved any 1 new JDT provider and 1 new Behavioral Support agency. DRC CS Psychologist continues to be short 1 full time Psychologist that is bilingual in Spanish and is actively recruiting for this position. All hiring as of COVID-19 pandemic has been based on HR allowance. During this review period, DRC has hired Service Coordinators, Administrative Assistants, Nursing staff and Quality Assurance staff. Program Changes: None

Service Needs/Recommendations

Desert Regional Center and other DS agencies continue to explore out of state agencies that support individuals with dual diagnosis, particularly with high level behavioral needs, to potentially provide this service in Nevada. Although, this population need amongst our 5000+ is relatively low, there is a need to improve support to these individuals. This information is consistent with previous agency reports.

Agency Concerns/Issue

DRC Community Services continues to have some difficulties with SLA provider capacity to support behaviorally complex individuals. We continue to work with DPBH and Family Services (for children) to approach this from a collaborative perspective. DRC also continues to have difficulty with hiring bi-lingual, Spanish speaking staff. In addition, DRC provider agencies are having difficulties in on-boarding new staff. Due to being unable to hire new staff and support new SLA and JDT placements, DRC's waitlist has grown, despite us having the funding to support some new SLA and JDT placements. Currently, the JDT and SLA providers are working with our Quality Assurance department to assess if some provider standards can be loosened, specific to their staffing shortfalls.

Waiting List: @ 3/31/2021 0

Program: Respite

Caseload: @ 6/30/2021 82

Waiting List: @ 6/30/2021 0

Note: Respite Services for children are approved by and paid for by the county of residence of the custodial parent.

Program: Autism

Caseload: 0

Waiting List: : Transferred to ATAP July 1, 2011

intake Information

Number of Applications Received: @ 7/31/2021 10

Number of Applicants found Eligible: 1

Number of Applicants found In-Eligible: 2

PROGRAMS

The Rural Regional Center continues to manage service coordination in the rural regions with an emphasis on in person contacts to persons served except for those situations where COVID 19 complications require remote contact and review. For the remote contacts zoom and related technology have allowed agency staff to still meet with both persons served and their support staff. RRC offices have remained open to the public. RRC staff have transitioned back to more regular in office hours while adjusting to the COVID 19 restrictions as set down by the governor's policy.

The RRC clinical team continues to make therapeutic interventions available to individuals' served including social interaction groups, music therapy, individual counseling and a stress reduction group which is directed at both persons served and the staff that support them.

Community providers have returned to more regular services as programs and supports in the community allow. Day programs are open to serve individuals who are ready to return to their regular day program supports. In the Pahrump region an additional supported living home has been opened due to the increased demand for 24 hr residential supports in that region. Currently the RRC quality assurance and program managers are reviewing the opportunity to add a jobs and day training program to the Pahrump region due to the demand from local individuals and parents.

Outreach and intake staff for RRC are ramping up coordination with the regional community programs and schools. This outreach effort includes a plan to develop connections with the rural tribe programs to ensure there is improved communication regarding service needs for this population.

Service Needs/Recommendations

Ongoing service needs include a review of the provider rate available to pay direct support staff in the rural regions. This is especially a need in the frontier- Ely, Elko, Winnemucca- regions where competition from the mining industry makes hiring and retention of suitable direct support staff very difficult. Overall provider groups are in need of more incentives to retain and attract support staff to both residential and day program jobs. It is recommended that providers in these frontier regions have an enhanced direct support staff rate to encourage better qualified staff to hire on with the providers in those locations.

It has been recommended that day program providers add more focus in their vocational programs to increasing community based work options with the required job coaching supports.

One specific recommendation from the regional center is to get more financial stimulus back to the providers to assist with retention of staff.

The rural regional center continues to need a provider body that specializes in serving individuals with challenging behaviors. The difficulty in attracting such specialized providers appears to be linked to the provider rate currently available in NV.

Agency Concerns/Issue

There remains a concern that the current RRC providers of direct supports will struggle to rebound from the harm done by the COVID 19 pandemic. Many of the current providers are struggling to hire new staff to replace those who have resigned during the pandemic and this situation has required some re-working of home configurations in order to continue staffing safely. It is unclear whether the change in stimulus payments to persons not currently employed will make a difference to provider ability to bring these staff back into the work-place; competing agencies have elevated base pay for work such as fast food to a level that is difficult for RRC contracted providers to compete with. Currently the RRC priority is to maintain the current provider infrastructure without losing any further provider capacity due to staffing shortages.
