

AGENCY DIRECTORS REPORT

AGENCY: Lake's Crossing Center

SUBMITTED BY: Theresa Wickham

DATE: 4/26/2021

Reporting Period: 3/31/2021

STAFFING

Positions filled: 4 - We recently filled the following positions: 1 Activities Therapy Tech, 3 Forensic 1 positions, 1 Custodial Worker II and 1 Maintenance Repair Specialist.

Vacancies: 10: 1 Administrative Assistant II (currently being advertised), 2 Forensic Specialist positions (in the hiring process now), 3 Licensed Psychologist I positions, 1 Social Worker II (submitted requisition to DHRM), 1 Psychiatric Caseworker (submitted requisition to DHRM),

Difficulties filling: Nursing positions are difficult to fill due to compensation disparities with hospitals in the local area. Two issues with filling the Forensic Specialist/Mental Health Tech positions is successful completion of a background check and the POST certification physical fitness exam. The Psychologist positions have a salary disparity and the Forensic Psychologist specialized training as difficulties for recruitment. The salary disparity is not unique to Lake's Crossing Center but is a statewide issue in state employment recruitment for Licensed Psychologists. It is a more unique issue to the Reno area with the higher rent/housing prices than it is in the Las Vegas area.

CASELOADS/WAITING LISTS

Program: Inpatient

Census: average daily census = 80

Average Length of Stay per client type:

415 = 104 days 425 = 105 days

461 & NGRI = 2154 days

Pending List: 8 from Washoe and the rural counties (all are in the process of being offered a bed, obtaining medical clearance, or awaiting transport). Several of these are on medical holds d/t pre-existing conditions. We currently have CCDC planes filled for April and are working on the May planes.

Program: Outpatient Competency Evaluations Caseload: Average 57 evaluations monthly. Total for 3rd Quarter was 169 completed outpatient evaluations.

Program: Outpatient

Caseload: Four conditional release clients.

PROGRAMS

January, February and March had our 20 long term clients continuing their own activities group and saw the beginnings of the gardening therapy group start again with Spring plantings. We are also creating additional art therapy projects based on donated supplies.

Service Needs/Recommendations

The Covid-19 pandemic reinforced the "Emergency Preparedness" philosophy so this last quarter was spent vaccinating employees, reviewing protocols for any pandemic related changes, researching PPE availability options, planning ahead for mass outbreak scenarios, etc.

Agency Concerns/Issue

Available bed space continues to be a concern as our long-term clients continues to increase and the long-term clients currently occupy 19 of the beds with two in the queue having Comprehensive Risk Assessments completed. Our long-term clients are also aging and are experiencing more chronic health issues related to aging. Each bed taken buy a long-term client is 3-4 evaluations lost each year. We have begun discussions now on long-term options for these clients.

AGENCY DIRECTORS' REPORT

AGENCY: Stein Forensic Facility

SUBMITTED BY: Stanley Cornell

DATE: 5/3/2021

Reporting Period: 3/12/2021

STAFFING

Positions filled: Since the last report. Stein hired 4 Forensic Specialists, leaving 13 FS-III vacancies and no FS-IV vacancies. Nursing has filled 5 PN II positions leaving no vacancies. There is 1 PN-III vacancy to be filled.

Other vacancies: Currently the Social Work Department has one PCW vacancy to fill.

Difficulties filling: With Peace Officer training academies limiting classes and seats, recruiting for vacancies has focused on candidates who are currently POST certified. However, to rebuild our list, Stein is again be hosting physical fitness trials for potential candidates twice a month.

CASELOADS/WAITING LISTS

Program: Inpatient

Caseload: 72; Includes 2- Long Term Clients Committed under NRS 178.461. Also, one 461 client in the community on conditional release.

List of Commitments for Competency restoration pending bed offers: Variable-Beds offered to all clients committed under NRS 178.425 within 7-days upon receiving orders

Program: Outpatient

Caseload: Restoration 12; Pre-commitment evaluations 5 YTD

Waiting List: 1 Restoration referral pending intake assessment

PROGRAMS

Seclusion and restraints -Stein continues to focus on the reduction of restraints overall through the therapeutic use of seclusion when indicated according to policy to reduce incidents of physical aggression, or self-harm. A debriefing and review process occurs for all incidents involving any form of restraints and/or seclusion. The rate of all restrains and seclusions for the reporting period is .58 per client/month. The Stein Leadership oversight committee reviews all incidents involving a restraint, or restraint leading to a seclusion.

Service Needs/Recommendations

The ability to secure residential services and housing for long-term clients petitioning for conditional release is a barrier to this program. Long-term clients eligible to petition for conditional release occupy beds and other inpatient resources needed for competency restoration clients.

Agency Concerns/Issue

Consent Decree (expired 12/31/2020): All cases adjudicated under NRS 178.425 continue to be offered beds within the 7-day mandate. Referrals from Nye and Lincoln Counties for per-trial competency evaluations average one per month. Barriers to outpatient competency restoration are securing reliable language interpretation services, transportation, effective medication management coordination for clients with outside providers, and limited numbers of group education classes due to social distancing that have been in place.

PROGRAMS

NEW PROGRAMS: No new programs were created.

PROGRAM CHANGES: Staff are back in the office full time with safety measures in place.

Service Needs/Recommendations

There is a shortage of qualified behavioral health providers, specifically in the areas of nursing, social work, psychiatry and psychology.

Agency Concerns/Issue

INPATIENT: The community ER wait list continues to be a priority. We continue to work collaboratively with our community partners. Over the last quarter, there has consistently been an average of 8 individuals who sit and wait to be transferred to a mental health facility on any given day.

We continue to see longer lengths of stay in the hospital due to lack of appropriate placements in the community.

OUTPATIENT: The availability of Community Based Living Arrangements (CBLAs) continues to be a challenge.

PROGRAMS

SRC continues to operate a pilot program with our sister agency – Lake’s Crossing. We have opened an ISLA home that will have specialized training for staff to work with 2 individuals that are co-served by SRC and Lake’s Crossing as part of the conditional release program. We tried to support a third person in the home that was also jointly served with SRC and Lake’s Crossing but due to staffing conditions with the impact of the pandemic, this individual was placed with another provider. The team still meets frequently to monitor the progress of the home with the goal of integration into the community when conditional release has been fulfilled.

Service Needs/Recommendations

SRC has identified the current lack of SLA Intermittent Providers as a major problem area for the people we serve. Fortunately, over the past several months, SRC has onboarded 3 new SLA Intermittent Providers. This has been very helpful to reduce the waitlist for SRC. Additionally, there is always a need for more Jobs and Day Training providers in the Washoe area. Currently we have more individuals than placements for this service need.

Agency Concerns/Issue

SRC has identified the need to work with JDT providers to increase capacity for supported employment in our community. The CMS final ruling will require DS to work with our JDT providers in re-vamping their programs to be more community based (as opposed to facility based). Our current JDT structure (facility based) does limit the number of people they can serve – our goal is to move toward a more community-based service system. We are also experiencing a shortage of JDT providers who can serve some of our more challenging behavior individuals and we have since started a waitlist. (2) DS providers express concern about the current provider rate (there was a rate increase during this last legislative session, however they still feel that it is not enough to remain competitive) and report that it is impacting their ability to recruit qualified employees. The 24-hour SLA providers report a high turnover rate which impacts consistency of supports offered to individuals served. (3) DS is experiencing a major shift in rental increase for homes and apartments in the Washoe County area. As major companies such as Tesla and Switch come into the area with an increased need for a labor force, prices have increased making it difficult to find homes that are aligned with what DS can support.

Additionally, due to the COVID-19 pandemic, SRC’s service providers are struggling with staffing issues and several of our homes have been hit with Covid-19. As an agency we are managing as best as we can but are always mindful that our providers are working with extremely slim crews.

PROGRAMS

New Programs: DRC Quality Assurance Department approved one new JDT provider during this report period. We continue to seek residential (SLA housing) and jobs training (JDT) potential providers to provide persons served with increased living and working support options. DRC Community Services is expected to hire up to 12 new/replacement Service Coordinators/DS-III's before the close of FY'21. All of our new positions are based on state budget allotment and justification to hire new positions. Program Changes: None

Service Needs/Recommendations

Desert Regional Center and other DS agencies have been exploring out of state agencies that support individuals with dual diagnosis, particularly with high level behavioral needs, to potentially provide this service in Nevada. Although, this population need amongst our 5000+ is relatively low, there is a need to improve support to these individuals. During this review period DRC/DS was involved in meeting 2 out of state providers about potentially providing similar services to both children and adults with complex behavioral support needs in Nevada.

Agency Concerns/Issue

DRC Community Services continues to have some difficulties with SLA provider capacity to support behaviorally complex individuals. We continue to work with DPBH and state/county Family Services (for children) to approach this from a collaborative perspective. As noted above, we (DS) have had preliminary discussions with 2 out of state providers about providing some level of clinical services to children/adults in the state of Nevada with complex behavioral support needs. DRC also anticipates state offices to be officially opened by the Governor on/about June 1, 2021 and we have had some internal discussions about safely opening the offices, to ensure staff are available in all offices, citizens of the public (and staff) are appropriately social distanced, proper PPE is in place and protocol compliance related to CDC guidelines are in place.

Comments:

- Census at the ICF is below what the ICF is licensed for. Due to high number of staff vacancies, the ICF is unable to support new admits, currently at 12 open Tech positions. There have been multiple referrals and once staffing levels are where they need to be the intake processes will be initiated.
- Interviews for the vacant Technician positions are happening the weeks of 4/26/21 and 5/3/21.
- Recruitment for the vacant dietitian position has been successful and have a new dietitian starting May 17, 2021.
- One ICF Home is still under remodel to comply with ADA requirements which started on March 15, 2021.
- Building 1300 is under remodel two kitchens are being removed to allow for a larger training and OT/PT therapy area. Construction work started on April 26, 2021.
- Building 1391 entrance /lobby is also being remodeled to allow for a secure entry.
- On April 19, 2021 received results of Medicare Recertification Survey and Focused Infection Control Survey that were conducted 3/22/2021- 4/06/2021. No deficiencies identified for the Health and Emergency Preparedness Surveys.
- ICF Management Team / Governing Body has been meeting regularly to develop and implement a Covid19 Contingency Plan. Plan is fluid and changes as recommendations come from CDC, CMS, and NV Governor.

PROGRAMS

The Rural Regional Center continues to manage services in the rural regions with a blend between in person and virtual contacts with persons served in the respective communities. All RRC offices are open to the public. RRC staff are transitioning back to more regular in office hours following reduced restrictions based on the COVID 19 pandemic. Community providers are also returning to more regular services as programs and supports in the community allow. Day programs are open to serve individuals who are ready to return to their regular day program supports.

Outreach and intake staff for RRC are ramping up coordination with the community programs and system partners who are typically a source of new cases coming into the RRC program e.g. schools in the rural regions are getting back to more regular services and RRC outreach staff are connecting with them regarding services available to students with developmental / intellectual disabilities.

Service Needs/Recommendations

Ongoing service needs include a review of the provider rate available to pay direct support staff in the rural regions. This is especially a need in the frontier- Ely, Elko, Winnemucca- regions where competition from the mining industry makes hiring and retention of suitable direct support staff very difficult. There is currently a provider rate study being managed to identify how the current rate measures up against the cost of living, transport costs, and related fiscal barriers in the rural regions.

It is recommended that providers in these frontier regions have an enhanced direct support staff rate to encourage better qualified staff to hire on with the providers in those locations.

Agency Concerns/Issue

There remains a concern that the current RRC providers of direct supports will struggle to rebound from the harm done by the COVID 19 pandemic. Many of the current providers are struggling to hire new staff to replace those who have resigned during the pandemic and this situation has required some re-working of home configurations in order to continue staffing safely. In addition, direct support staff receiving the ongoing stimulus money and unemployment benefits have little incentive to continue working in this industry. RRC is concerned that if this additional COVID 19 stimulus continues the current providers will struggle to maintain staffing in the community supported living programs currently available.
