Mental Health Tech 3 (21)
Psychiatric Nurse 2 (25.62)
Psychiatric Nurse 3 (1)
Therapeutic Recreation Spec 1 (1)

POLICY GUIDANCE NEEDS (If applicable)

There is a shortage of qualified behavioral health providers, specifically in the areas of nursing, social work, psychiatry, and psychology.

INPATIENT: The community ER wait list continues to be a priority. We continue to work collaboratively with our community partners. Over the last quarter, there has consistently been an average of 3 individuals who sit and wait to be transferred to a mental health facility on any given day.

We continue to see longer lengths of stay in the hospital due to lack of appropriate placements in the community.

OUTPATIENT: The availability of Community Based Living Arrangements (CBLAs) continues to be a challenge

AGENCY- CASELOADS/WAITING LISTS

Program: IP Forensic Beds

Waiting List: NA

Caseload: 86 budgeted beds

PROGRAM HIGHLIGHTS

The main building remains at or near capacity as we provide statewide forensic services. We are coordinating with the various courts to explore solutions as it pertains to admissions. Our conditional release program continues to find suitable housing options for a portion of our long-term clients. Regarding building status, we have several construction projects occurring or nearing their respective start date. This include food slots being welded into our reinforced doors. New security locks being placed on the doors of our Control Room and in the Blue Living Area. We have an upcoming capital improvement project to have the "Pony Walls" (half walls within the client rooms) removed, which removes a potential ligature risk. We have placed orders to have our mattresses replaced with a reinforced model purpose built for durability and security. At our annex unit we are preparing to begin updating our ADA bathrooms. COVID and Flu vaccines will continue to be offered to staff and clients. As a facility we continue to follow all accepted infection control precautions to mitigate transmission risk.

STAFFING

Positions filled: 14 have been filled since June

Forensic Specialist 3: 7

Clinical Social Worker 2: 1

Sr. Psychiatrist: 1

Administrative Assistant 2: 1

Psychiatric nurse 2: 1

Psychiatric Caseworker 2: 1

Correctional Lieutenant: 1

Custodial Worker 2: 1

Vacancies:

24.5 vacancies total when including seven positions currently being put on hold.

Psychiatric Nurse 2: 2.5 (2 full time & 1 part time)

Forensic Specialist 3: 8

Forensic Specialist 4: 1

Licensed Psychologist 1: 2

Clinical Social Worker 2: 1

Administrative Assistant 2: 1

Sr Psychiatrist: 1

Psychiatric Caseworker: 1

Difficulties filling: We have had some recent success filling the Forensic Specialist position; however, recruitment continues to be impacted by the background check and the POST certification physical fitness exam. The Psychologist positions have a salary disparity, additionally specialized training required for a Forensic Psychologist can be a barrier. The offered compensation impacts multiple departments, and this challenge extends beyond Lake's Crossing Center. Housing and the cost of rent are both considerations of our potential applicants.

Programs

SRC continues to operate a pilot program with our sister agency – Lake’s Crossing. We have opened an ISLA home that will have specialized training for staff to work with 2 individuals that are co-served by SRC and Lake’s Crossing as part of the conditional release program. The team still meets frequently to monitor the progress of the home with the goal of integration into the community when conditional release has been fulfilled.

SRC has also started to open ISLA homes for kid’s we serve. We currently have two homes opened and our division is in the process of a major overhaul in how we can accommodate our children’s services for kids with highly behavioral needs that can no longer reside in specialized foster care nor their natural home. Most of these children in the past were being sent out of state but ADSD is trying to changes services to keep our children in state with a collaboration of many entities to include state and county partners.

Service Needs/Recommendations

SRC has identified the current lack of SLA Intermittent Providers as a major problem area for the people we serve. Additionally, there is always a need for more Jobs and Day Training providers in the Washoe area. Currently we have more individuals than placements for this service need.

SRC is currently looking into ways to offer increase rates and supports for behaviorally challenged children to stay in their homes while we wrap around servcies. This has always been a concern but administration in conjunction with state and county partners are putting together ideas that have arisen out of the AB387 guidelines.

Agency Concerns/Issue

SRC has identified the need to work with JDT providers to increase capacity for supported employment in our community. The CMS final ruling will require DS to work with our JDT providers in re-vamping their programs to be more community based (as opposed to facility based). Our current JDT structure (facility based) does limit the number of people they can serve – our goal is to move toward a more community-based service system. We are also experiencing a shortage of JDT providers who can serve some of our more challenging behavior individuals and we has since started a waitlist. (2) DS providers express concern about the current provider rate (there was a rate increase during this last legislative session, however they still feel that it is not enough to remain competitive) and report that it is impacting their ability to recruit qualified employees. The 24-hour SLA providers report a high turnover rate which impacts consistency of supports offered to individuals served. (3) DS is experiencing a major shift in rental increase for homes and apartments in the Washoe County area. As major companies such as Tesla and Switch come into the area with an increased need for a labor force, prices have increased making it difficult to find homes that are aligned with what DS can support.

Critical Need: Due to staffing shortages in our area we have several providers who are on the brink of not being able to sufficiently staff their homes. They are utilizing overtime and many of their recruitment efforts are only bringing in a few staff. This need has been addressed with administrations and they are fully aware of the state of employment in Nevada.

PROGRAMS

New Programs: DRC Quality Assurance Department continues to recruit for new SLA and JDT providers. The department has been working with behavioral consultants, who were/are previously contracted or employed with our contracted certified providers, to become direct behavioral consultant providers with DRC. As indicated in the previous report, we expect many/most of these providers to become DRC certified behavioral consultant providers by the end of calendar year 2022. DRC CS Psychologist continues to be short 1 half-time (may soon become full-time) Psychologist that is bilingual in Spanish and we have an open recruitment offer posted for this position. We also just posted a full-time Mental Health Counselor II at the time of report. During this review period, DRC has hired Service Coordinators (Developmental Specialists), Administrative Assistants, Nursing staff and Quality Assurance staff. We currently have filled all of our Service Coordinator positions. Program Changes: None

Service Needs/Recommendations

As indicated in previous Agency Reports, Desert Regional Center continues to have challenges with supporting individuals with dual diagnosis who have complex high level behavioral needs. Although, this population need amongst our 5000+ is relatively low, there is a need to improve support to these individuals using certified providers. DRC has also collaborated with DCFS/DFS to create a

multi-agency team that focuses on children support needs that have open cases with family services and DS or who may be eligible for DS services if they meet our eligibility standards. This multi-agency collaboration has moved to a cross training module for DRC and both county/state children's agencies. DRC's Intake and Psychology department continue to have direct and consistent interactions with DFS/Oasis treatment facility to assist with the early identification of children who may be eligible for DRC services.

Agency Concerns/Issue

DRC Community Services continues to have some difficulties with SLA provider capacity to support behaviorally complex individuals. We continue to work with DCFS and DFS (for children) to approach this from a collaborative perspective. In addition, DRC provider agencies continue to have difficulties in on-boarding new staff. Due to being unable to hire new staff and support new SLA and JDT placements, DRC's waitlist has grown, despite us having the funding to support new SLA and JDT placements. We also have some individuals who are approved to receive SLA and/or JDT supports from their preferred JDT/SLA agency, but their preferred provider agency is not fully staffed to accommodate them. We have opened up our respite and Self-Directed Family Supports Arrangement (SDFSA) waiting lists to offer respite/SDFSA for all those on the waitlist.

PROGRAMS

Rural Regional Center continues to have all regular programs available including Respite, Self Directed Service, Family Preservation Program, Supported Living Arrangements and Jobs and Day training services. The latter two services comprise the agency's largest support program to persons served across rural Nevada. In some cases these services are limited due either to the provider capacity to serve in that location and/ or the nature of the support need which proves to be beyond the scope of the providers available. The agency is providing outreach to family's who wish to manage their own self directed service as this program allows the parent involved to identify and hire their own staff and vendors as relevant to their child's needs. Clinical services continue as regularly scheduled individual and group therapy and assessment. Virtual classes are made available to all 8 regional programs as requested.

Service Needs/Recommendations

RRC continues to work with the available provider supports to make residential and wrok supports available. In some cases individuals are moving to those locationswhere the services are available. The agency is looking for opportunities to invite new provider options into the rural regions where services for individuals with challenging support needs (behavioral and/ or medical) are lacking. An enhanced provider rate is recommended to compete with those other industries in the rural regions that are providing higher compensation for their staffing.

Agency Concerns/Issue

There continues to be a concern that the current provider capacity will not be enough to provide for those individuals with more severe and challenging support needs. In some cases these support needs will require re-location out of state to match the services required. Low density of staffing also leads to staff burn-out and illness which compounds an already difficult staffing challenge for provider managers.
