Current Amendment Concepts for SB 44

Fergus Laughridge, Board Chair

Valerie Cauhape Haskin, MA, MPH, Rural Regional Behavioral Health Coordinator

Rural Regional Behavioral Health Policy Board

Meeting on February 24, 2021

Agenda Item 6

Goals for Today:

- Communicate process since last meeting
- Present current amendment concepts
- Board discussion/review and approval
- Next Steps:
 - Complete amendment language
 - Submit amendment
 - Get SB 44 scheduled ASAP

Process Since Last Meeting

Board Chair and RBHC met weekly

Drafted list of amendment conecpts, based on feedback from the January 27, 2021 meeting

Floated amendment concepts to Board members individually for consideration and feedback

Continued meeting and communicating with stakeholders

Further refined amendment concepts

Floated updated concepts to individual Board members

Today: bringing concepts for final review and Board approval

Remove

 Interim study on the efficiency and effectiveness of BH licensing board processes for licensure

Add

- Revisions of language regarding licensure by endorsement for all four BH licensing boards.
 - Will be using altered language from Board of Pharmacy as template.

Why?

• Creates no immediate change

Why?

 Accomplishes goals, closely matches feedback from stakeholders, reputable example, creates immediate change

Remove

 Language regarding unofficial transcript submission for provisional licensure

Change

 This language to reflect provisional licensure pending fingerprinting results

Why?

 Stakeholders felt transcript submission wasn't the major holdup. Why?

- Allows for professionals to begin practice more quickly
- Codifies fingerprinting into NRS

Change

- Language regarding NRS from "may" to "shall" grant licensure by endorsement
- Language regarding licensure by endorsement to mandate granting of licensure unless denied for good cause.

Why?

 Adds teeth and removes some grey area surrounding grounds for licensure.

Add

 Codifying in NRS that remote supervision options must be provided for interns.

Why?

- Removes major barrier for many rural residents who wish to become licensed providers.
- Available part-time from SW Board, full-time from MFT/CPC Board, and has been discussed by Alcohol and Drug Board. All in NAC, not NRS.

What SB 44 Would Look Like

Overview of Components of SB 44 (as amended)			
А	В	С	D
Revised licensure by endorsement requirements	Provisional licensure pending background check results	Remote supervision options for interns (in development)	Addition of LMSW licensure type

Board Discussion and Possible Action
