

# Implementation of SB156 of the 81<sup>st</sup> Regular Session Crisis Stabilization Centers

This legislation requires the Department of Health and Human Services (DHHS) to ensure that crisis stabilization services provided at hospitals with a crisis stabilization center endorsement are covered and reimbursable services under Medicaid. The goal of this legislation is to add a place to go as a critical element of the crisis continuum of care to support an array of crisis services critical in caring for individuals experiencing a behavioral health crisis.
