How to Use This Directory

Community resources helpful to families and young children have been compiled in this directory. Most are organized according to county or region of location; however, please also see the statewide resources section for additional services available.

In Case of an Emergency, Call 9-1-1

An emergency is any situation requiring immediate assistance from the police, fire department or ambulance. If you are not sure whether the situation is a true emergency, officials recommend calling 9-1-1 and letting the operator determine if emergency help is needed. When calling 9-1-1, be prepared to answer the following questions:

- The location of the emergency, including street address if possible
- The phone number you are calling from
- The nature of the emergency
- Details about the emergency

If you or a child calls 9-1-1 by mistake, do not hang up. Stay on the line and explain the mistake to the operator.
