

The Nevada Health Connection Supported by OpenBeds ®

Elyse Monroy, OD2A Program Manager
Miranda Branson, OD2A OpenBeds Coordinator

Nevada Overdose Data to Action

- ▶ Nevada's Primary Source of CDC for Overdose Surveillance, and CDC prevention and intervention work.
- ▶ 4 year Grant through DPBH - OPHIE
 - ▶ UNR-CHS; PHTC, Project Management and Implementation
- ▶ Surveillance
 - ▶ Nonfatal and Fatal
 - ▶ Hospital, EMS, ODMAPS
- ▶ Prevention
 - ▶ PDMP (E.H.R Integration, NarxCare)
 - ▶ Support Community Spike Reponses Planning through the development of comprehensive spike alerts.
 - ▶ **Linkage to Care (OpenBeds)**

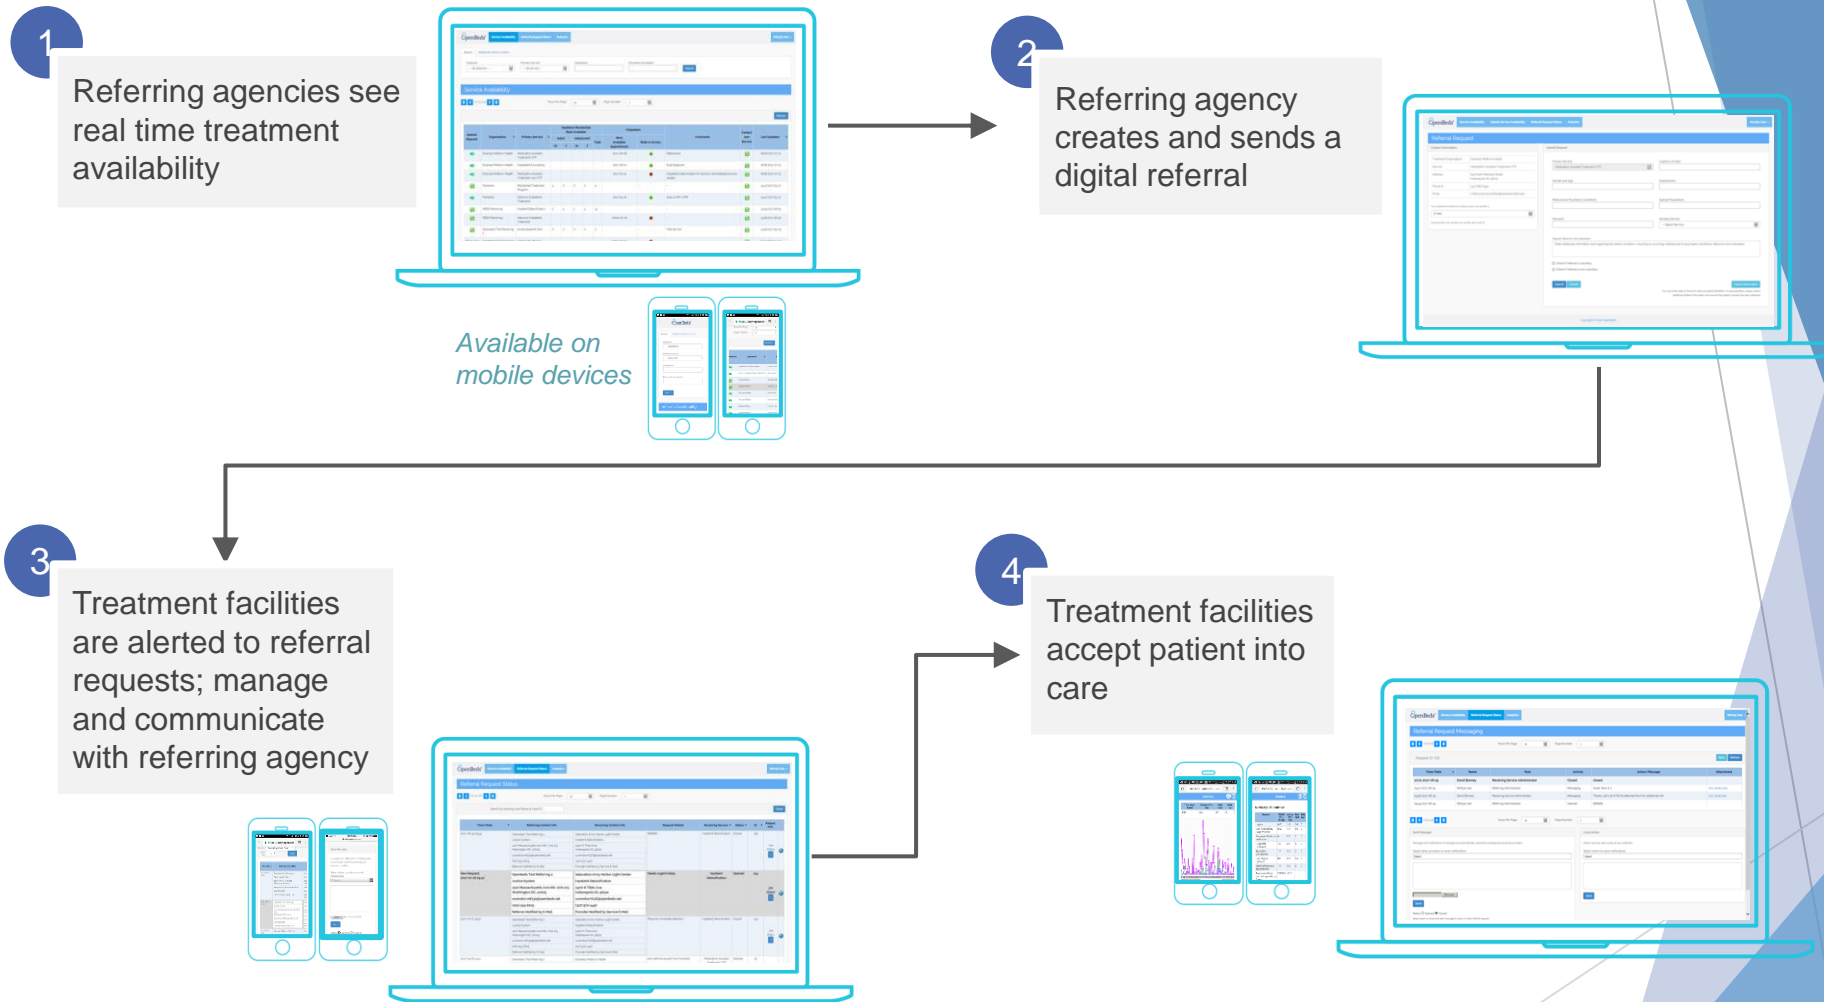

What is OpenBeds?

- Electronic Behavioral Health and Social Services Referral tool
- OpenBeds is the software that facilitates the development of the Nevada Health Connection
- Nevada is implementing OpenBeds through the CDC Overdose Data to Action Program
- OpenBeds will support the State's in implementing the Crisis Now Model
- OpenBeds supports hospital's and their ability to report data to the state in compliance with AB85

How does it support the development of resource guides?

- OpenBeds is a Behavioral Health Services Registry- Referring providers *or members of the public* can log in to check services
- OpenBeds has a tie to 211. When a referring provider sends a referral for treatment, they can send a simulations referral for 211.

How OpenBeds[®] Works: 4 Steps

Simple process to filter and find a bed or treatment slot, create/send/process a request -- in less than 2 minutes, provider is back to work
