Table 126: Percentage of high school students who visited a dentist during the 12 months before the survey.....	127

INTRODUCTION

Priority health risk behaviors (i.e. preventable behaviors that contribute to the leading causes of morbidity and mortality) are often established during childhood and adolescence and extend into adulthood. Ongoing surveillance of youth risk behaviors is critical for the design, implementation, and evaluation of public health interventions to improve adolescent health. The Youth Risk Behavior Survey (YRBS) is a national surveillance system that was established in 1991 by the Centers for Disease Control and Prevention (CDC) to monitor the prevalence of health risk behaviors among youth. The Nevada High School YRBS is a biennial, anonymous, and voluntary survey of students in 9th through 12th grade in regular public, charter, and alternative schools. Students self-report their behaviors in six major areas of health that directly lead to morbidity and mortality, these include:

- 1) Behaviors that contribute to unintentional injuries and violence;
- 2) Sexual behaviors that contribute to human immunodeficiency virus (HIV) infection, other sexually transmitted diseases, and unintended pregnancy;
- 3) Tobacco use;
- 4) Alcohol and other drug use;
- 5) Unhealthy dietary behaviors; and
- 6) Physical inactivity.

In 2019, 36 high schools were randomly chosen by the CDC to represent Nevada. To ensure greater representation from schools in *all* districts, the Nevada Division of Public and Behavioral Health contracted with the University of Nevada, Reno, School of Community Health Sciences to conduct the YRBS in all high schools throughout the state. The 2019 Nevada High School YRBS provides statewide data to assess priority health-risk behaviors among high school students; measure progress toward achieving national health objectives for *Healthy People 2020* and other program and policy indicators; and evaluate the impact of school and community interventions at the national, state, and local level. It is our intention that these data will be used by education and health professionals, policy makers, community members, and researchers to improve the health of Nevada's high school students.

METHODS

Sampling, Weighting, and Analysis

The 2019 Nevada YRBS sampling plan was designed to ensure that every eligible student had an equal chance of selection. A random cluster sample design was used to produce a representative sample of students in grades 9–12 (all Nevada regular public, charter, and alternative high schools). In order to provide regional data that represent all counties in the state, all 17 school districts were grouped into 8 regions that generally reflect the prevention coalition structure (Table 1). The regional grouping also helped ensure that individual schools could not be identified. Next, classes were randomly selected within every school with the probability based on a required margin of error in the sample size for each region. Intact classes of either all second period or all required

English courses were randomly selected from each school. The questionnaire was administered to all students in sampled classes from February to May, 2019.

The 2019 Nevada YRBS data were weighted based on the sex, race/ethnicity, and grade level of students in each region. The weighting process ensured that the estimates accurately represent the entire student population in each region and the state as a whole. Non-response or poor sampling procedures can result in a sample that is not a representative subset of the population; therefore un-weighted results from these samples may not accurately reflect student behaviors and could be misleading. This report only displays weighted results.

Table 1: 2019 YRBS sampling regions and prevention coalition structure

Region	School District	# Schools	Nevada Statewide Coalition Partnership
1	Carson City	2	Partnership Carson City
2	Douglas County	3	Partnership of Community Resources
3	Elko County White Pine County Eureka County	10	Pace Coalition
4	Churchill County Humboldt County Pershing County Lander County	5	Churchill Community Coalition Frontier Community Coalition
5	Lyon County Mineral County Storey County	8	Healthy Communities Coalition
6	Nye County Lincoln County	7	Nye Communities Coalition
7	Washoe County	17	Join Together Northern Nevada
8	Clark County	49	Care Coalition PACT Coalition

Permission Status and Response Rates

Parental permission is required for YRBS participation. Nevada school districts have two forms of parental permission: 1) active and 2) passive. *Active parental permission* means the students must return a signed permission form indicating their parent or guardian’s approval for participation in the survey. *Passive parental permission* means the students take a permission form home and return it only if their parent or guardian does not want them to participate in the survey. The type of permission status varies by district based on school district policy. Active permission requires more time and resources and may reduce the number of students that participate in the survey. All school districts agreed to participate in the 2019 High School YRBS and only 2 schools did not participate (107 potential respondents). Overall, 4,980 youth from 99 schools completed the survey. Overall response rates (a combination of school and student participation) were generally higher in the school districts with passive parental permission (Table 2 and Figure 1).

Table 2: 2017 and 2019 YRBS response rates by school district

District	2017 YRBS Response Rate	2019 YRBS Response Rate	Permission
Carson City School District	74.6%	87.3%	Passive
Churchill County School District	84.4%	87.7%	Passive
Clark County School District	61.1%	61.8%	Active
Douglas County School District	51.6%	63.4%	Active
Elko County School District	81.6%	78.7%	Passive
Eureka County School District	71.4%	96.7%	Passive
Humboldt County School District	91.3%	85.0%	Passive
Lander County School District	51.5%	11.3%	Active
Lincoln County School District	87.6%	89.9%	Passive
Lyon County School District	39.6%	53.8%	Active
Mineral County School District	82.1%	91.3%	Passive
Nye County School District	52.1%	65.8%	Active
Pershing County School District	92.1%	92.9%	Passive
Storey County School District	95.9%	84.1%	Passive
Washoe County School District	76.8%	72.9%	Passive
White Pine County School District	80.9%	78.5%	Active
Overall Response Rate	65.7%	67.3%
