Accomplishments

Name Description During the April 1, 2019 - June 30, 2019 time period, the PACE Coalition (Elko, Assessment of community capacity Eureka, White Pine) collaborated with partners about assessing gaps and resources in the community. In an ongoing process in both coalition and member meetings, working with agencies and organizations through their needs assessments. Assessment of community capacity During the January 1, 2019 - March 31, 2019 time period, Nye Communities Coalition (Esmeralda, Lincoln, Nye) carried out the following: During this 9 month grant period, assessment is a significant portion of the scope of work. Through this project, environmental scans around marijuana, amphetamines, and alcohol (social host laws) and youth 9-20 will be conducted. NyECC does not yet have a signed sub-grant in place. Despite not having a signed sub-grant in place, NyECC Director will rollout this project in April as the State has informed NyECC that reimbursements will be retroactive. NyECC Director facilitated a county-wide assessment for Nye and Esmeralda counties at the February Hope Committee meeting. Identify resources and gaps as they relate to substance abuse prevention and treatment. NyECC Director and Crystal Duarte with Social Entrepreneurs facilitated the March HOPE Committee meeting in order to obtain clarification in the data compiled. This was a project was in support of the Behavioral Health Boards. On February 13, 2019, the NyECC Director and staff held a focus group in Beatty High School with youth representatives from Student Council. The main focus was youth drug use. NvECC Director has coordinated with a community leader in Tonopah to conduct focus groups with middle and high school students in Tonopah. These focus groups are set for April 1-2, 2019 and will look at drugs and their impact on their community. Based on key stakeholder information, these focus groups may provide information that is relevant to social host laws as well as Safe Voice. NyECC Director has scheduled a Community Conversation for April 16 at 5:30 PM at the Tonopah Convention Center to discuss youth drug issues, local conditions and develop prevention strategies that are appropriate. Law enforcement, school personnel, youth, parents, youth-serving organizations and anyone else interested in being part of the conversation is invited to the Community Conversation. Assessment of community capacity During the January 1, 2019 - March 31, 2019 time period, PACE Coalition (Elko, Eureka, White Pine) collaborated with partners/collaborators about assessing gaps and resources in the community. In an ongoing process in both coalition and member meetings, working with agencies and organizations through their needs assessments.

Assessment

SP080994 Nevada Department of Health and Human Services

Assessment of community capacity	During the July 1, 2019 - September 29, 2019 time period, PACT Coalition (Clark) completed the following: On July 15, PACT Deputy Director attended the Southern Nevada Injury Prevention Partnership Committee as a proxy for PACT Executive Director. This meeting occurs quarterly and reviews county-level death, injury and health data, including youth-specific data, to discuss prevention strategies.
	 On August 7, the PACT Executive Director attended the Pathways meeting that reviewed truancy and discusses the underlying causes associated. On August 22, the PACT Executive Director participated in the Clark County Behavioral Health Policy Board Meeting that reviews at behavioral health data at the county-level. On August 28, the PACT Executive Director met with SAPTA's Dr. Woodard and Tracy Palmer to discuss the roles of MPAC, evidence-based workgroup and EPI On September 12, the PACT Deputy Director participated in a call with Evaluator Roseann Hagen to provide feedback regarding year 1 PFS and
	develop a plan for year 2 PFS. Marijuana Campaign: During this quarter, the online I-Base survey was completed. I-Base survey was used to test campaign name, message development, media platform testing, etc. It was determined that the peer crowd with the highest marijuana use prevalence and acceptance is those who identify with the hip-hop community. Interventions and social branding campaign will be developed specifically to reach this peer crowd.
Assessment of community readiness to act	During the January 1. 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) conducted research on the implementation of the social host law in the service area. Also, HCC is identifying necessary information to disseminate about Handle with Care Training. This includes identifying the training's main points and the target audience for the training. A survey was developed to administer to youth participants in substance abuse prevention education. This survey will ask youth to self-identify their change in knowledge about substance use throughout the program.
Assessment of community risk and protective factors/causal factors	During the January 1, 2019 - March 31, 2019 time period, Churchill Community Coalition and PFS staff prepared for the Coalition's Annual Community Adult Survey, which is held throughout the coalition and community summer events, two traditional, standing community sites, and posted on the Coalition's website. Through the Resource Liaison (RL) program, in the middle and high schools, RLs are continually collecting data on youth risk factors, substance use, perception of harm, and other contributing and associated factors, influences, beliefs, perceptions and actions related to substance use and their sustenance. These data are collected from the youth in classrooms, through written, and verbal (informal interviewing) methods, and are utilized in continual assessment and education planning.
Assessment of community risk and protective factors/causal factors	During the January 1, 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) conducted research on social host law implementation in Lyon County looking at if and how the social host law is being implemented. The Coalition also identified necessary information to disseminate about Handle with Care Training. The Coalition worked to identify the main points from the training to share, and who the target audience will be for the information. HCC developed a survey to give to youth participating in substance use prevention education sessions and activities. This survey will ask youth to self-identify their change in knowledge about substance use throughout the program.

Assessment of the magnitude of	During the April 1, 2019 - June 30, 2019 time period JTNN (Join Together
substance abuse related problems	Northern Nevada, Washoe County) an assessment of data from the first year of
(consumption/consequences)	Botvin LifeSkills training to determine schools to be approached for the 2019/2020 school year.

arriers/Challenges			()	
Name	Description	TA Requested	TA Request Date	Additional Description
Other - Environmental Scan for Social Host LAws	During the July 1, 2019 - September 29, 2019 time period, PACT Coalition (Clark) continued conversations between staff at Las Vegas Metro Police Department Office of Community Engagement and PACT's Deputy Director. Conversations were in support of a local, environmental scan to determine if the NRS was being cited in regards to social host laws. In year 1, PACT's goal was to determine if NRS was cited, reasons why and if any interest for collaboration existed. The next step was to use this data to guide the activities for future years. PACT has successfully worked with Metro in the past. The intent was to have Metro be the "middle man" and help connect PACT to the appropriate individuals within law enforcement agencies in the City of Las Vegas, North Las Vegas, Henderson, and unincorporated Clark County. However, due to new staff in positions, this project was delayed and ultimately denied

Convening leaders and stakeholders	During the April 1, 2019 - June 30, 2019 time period, Partnership Carson City (PCC) continued working with the Carson City Sheriff's Office, Boys and Girls Club of Western Nevada, Carson High School, and Juvenile Probation.
Convening leaders and stakeholders	During the April 1, 2019 - June 30, 2019 time period, the PACE Coalition (Elk Eureka, White Pine) held Coalition meetings on the first Tuesday of each mor in Elko, and in West Wendover and Ely on the second Tuesday of the month. Ongoing informational e-mails are sent through the Coalition's list serve. The Executive Director and Prevention Coordinator have been in contact with loca law enforcement agencies in the three county service area regarding any nee that arise. The Eureka County Sheriff's Department has requested that planni meetings be heldin Eureka beginning in June 2019.
Convening leaders and stakeholders	During the January 1 - March 31, 2019 time period, PACE Coalition (Elko, Eureka, White Pine) convened monthly coalition meetings- usually the first Tuesday of every month and second Tuesday of the month in West Wendove and Ely. Ongoing informational e-mails to were sent coalition's list serve. The Executive Director and Prevention Coordinator have been in contact with loca law enforcement agencies in the three counties regarding any needs in their service areas. A Sheriff's Deputy has requested planning meetings in Eureka County beginning in June 2019.
Convening leaders and stakeholders	During the January 1, 2019 - March 31, 2019 time period, PFS staff attended Churchill Community Coalition Board of Directors meetings to update the members on the status of the PFS subgrant with SAPTA.
Description of necessary infrastructure development	During the April 1, 2019 - June 30, 2019 time period, JTNN (Join Together Northern Nevada, Washoe County) hired three new staff members in Botvin LifeSkills Training for implementation in the fall of 2019. One staff member is a member of the Washoe Regional Behavioral Health Policy Board and attends monthly meetings, occasionally making presentation One staff member also attends the monthly county Drug Task Force meeting.
	One JTNN staff member participated in The Parent Project training in order to become a facilitator. JTNN hired an additional staff member who is trained in delivering The Parent Project.

Developing relationships among stakeholders	During the January 1, 2019 - March 31, 2019, Nye Communities Coalition (Esmeralda, Lincoln, Nye) completed the following:
	The NyECC Director has been maintaining relationships with law enforcement during the quarter through other projects. It is the intent of NyECC to use law enforcement across the three counties to assist with information for the environmental scans. NyECC staff meets weekly with Nye County Sheriff Office representatives to identify areas of current and future collaborations, including this project. The NyECC Director has attended the January and March Lincoln County Coalition meetings as well as the March Tonopah Coalition Meeting. Additionally, the NyECC Director participated in the January, February, and March General Coalition meetings in Pahrump . The purpose is to engage partners that will be leveraged to support activities of this project, including environmental scans and Safe Voice promotion. Frontier Coordinator attended the Smokey Valley monthly meetings in January and March.

Developing relationships among	During the July 1, 2019 - September 29, 2019 time period, PACT Coalition
stakeholders	(Clark) accomplished the following: July, PACT Executive Director and PACT Training Manager along with six community partners, two are teachers at Sig
	Rogich Middle School, attended the CADCA Mid-Year Training. This 4-day conference was a great way to collaborate with the school staff and begin to
	develop an implementation plan for the Youth Team being started this school year.
	On July 2,, the PACT Deputy Director and Grants Coordinator participated in a
	phone meeting to learn more about an evidence-based youth prevention program focused on alcohol: Ask to Listen Learn. PACT staff met with Jasmine Murray.
	On July 23, the PACT Deputy Director participated in the Curriculum/CEU Committee to determine training appropriate to provide Prevention Specialists across the state. This committee reviews and approves trainings that will contribute towards required hours to maintain Prevention Specialist certification.
	On August 20, the PACT Deputy Director participated in the Curriculum/CEU Committee to determine training appropriate to provide Prevention Specialists across the state. This committee reviews and approves training that will contribute towards required hours to maintain Prevention Specialist certification.
	On August 20, the PACT Executive director and grantee from Nevada Partners attended CASAT's Evidence-Based Practices Training put on by Alyssa O'Hare.
	On August 23, the PACT Executive Director and Deputy Director participated in a phone call with Dept. of Public Safety to establish an account to do background checks through the state and federal databases, specific to employees who will work with the Youth Team.
	On July 11, the PACT Executive Director participated in the Mission High Advisory Council. During this meeting, a plan was created to increase youth involvement.
	On August 7, the Executive Director attended the Workforce Connections meeting. This is a new partnership for PACT! Discussions involved job placement for the youth who were experiencing substance use disorder and prevention of SUD.
	On August 7, the PACT Executive Director met with Pathways to discuss youth truancy and the complex, underlying causes that often entail.
	On August 12, the PACT Executive Director and Deputy Director met with the City of Las Vegas representatives to discuss the two VISTA members serving at the City. These two VISTA members are working to identify community gaps/needs and begin marijuana prevention efforts.
	On August 27-29, 2019, the PACT Executive Director, Deputy Director and Training Manager attended the National Prevention Network Training. Workshops.
	Marijuana Campaign: The first component of this project was research to understand the need and approach to reach teens who use marijuana/ cannabis. Increased capacity in terms of skills, message development, outreach strategies, campaign resonation, and knowledge was achieved.

Planning for sustaining the infrastructure	During the January 1, 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) sent one staff member to the Handle With Care training and are working with this staff member to identify important information to bring back to other staff and partners. HCC continues to maintain and develop strong partnerships with local agencies such as the Lyon County School District, Lyon County Law Enforcement, Lyon County Human Services, Multiple Behavioral Health Providers, and Local businesses to conduct activities and support programs.
Training and technical assistance to enhance the capacity of community stakeholders, coalitions, partner organizations, and service providers	Coalition (Lyon, Mineral, Storey) sent one staff member to the Handle With Care training and are working with this staff member to identify important

Barriers/Challenges

Name	Description	TA Requested	TA Request Date	Additional Description
Difficulties getting buy-in from partnering agencies	According to the PACT Coalition (Clark), It is difficult to bring programming into the schools. First, relationships must be cultivated and a foundation of trust established. PACT has been able to get "a foot in the door" at Sig Rogich Middle School through two teachers interested in supporting prevention efforts. PACT is excited to be starting a Youth Team and bring prevention advocates onboard with the PACT mission. To start, PACT must rely on the two teachers at Sig Rogich Middle School. It is a precarious relationship as we are just beginning the implementation stage. PACT is working to maneuver this relationship successfully. Originally, the expectation was to start about 2 weeks into the school year; however, the start date has been moved to October 2019. PACT intends to meet weekly with the Youth Team.	No

Name	Description
Identification/coordination/allocation of resources	During the April 1, 2019 - June 30, 2019 time period, the PACE Coalition (Elko, Eureka, White Pine) reached out to the communities to raise awareness of the needs and the desire to help provide services where needed. Making Choices presentations were offered by Prevention Coordinator and the parents of Payton Schweer. Payton's life was cut short on February 24, 2017 due to alcohol poisoning. His family is using this tragedy to increase awareness on a subject that is not often in the forefront of high school students' minds. The presentation consists of a summary of Payton's life and his death as the result of poor choices regarding alcohol. The Coalition's part of the presentation highlights key ATOD facts and data (alcohol, marijuana, other drug use) from the Coalition's catchment area as reflected in the 2017 YRBS. A listing of community resources was provided to each student and/or family member which was found in the brochure, along with the number for SafeVoice.
Identification/coordination/allocation of resources	During the January 1, 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) worked on of supporting, expanding and creating a multi-tiered, community-based system for the prevention of youth initiation in ATOD (Alcohol, Tobacco and Other Drugs) use as well as the identification of high-risk youth and families to provide rapid response treatment and support. Through this scope of work, HCC plans to increase youth knowledge and ability to avoid ATOD initiation, additionally under this scope of work HCC plans to increase social host law awareness among parents and law enforcement, and Increases combined capacity of the school, law enforcement and community agencies to identify and address at risk youth and families.
Identification/coordination/allocation of resources	During the January 1, 2019 - March 31, 2019 time period, PACE Coalition (Elko, Eureka, White Pine) increased outreach to other communities. Raising awareness of the needs and the desire to help provide services where needed. Making Choices presentations were done by PACE Coalition Prevention Coordinator, Joey Schweer, and Jasmine Casey, parents of Payton Schweer. Payton's life was cut short on February 24, 2017 due to alcohol poisoning and the family is choosing to use this tragedy to shine the light on a subject that is not often in the forefront of students' minds. The presentation consists of a summary of Payton's life and his death as the result of poor choices that were made regarding alcohol. PACE's portion of the presentations was to highlight key ATOD facts and data (alcohol, marijuana, other drug use) from the PACE's coverage area of Elko, Eureka, and White Pine Counties as reflected by the 2017 YRBS information. A listing of community resources was provided to each student and/or family member which was found in the brochure, along with the number for SafeVoice.

Identification/coordination/allocation of resources	During the July 1, 2019 - September 29, 2019 time period accomplished the following: On July 5,,the PACT Executive Director and Grant Coordinator met to review the scope of work and budget to ensure PACT successfully completed the PFS grant. Due to the grant being executed 4.5 months into the program year, a budget amendment was needed as well as an adjustment of the scope of work. On July 12, the PACT Deputy Director and Deputy Director met again to discuss needed changes to the budget and scope of work.
	On July 31, the PACT Deputy Director submitted an amendment request to be able to accomplish the Scope of Work and Budget spend down. On July 8, the PACT Executive Director and Deputy Director participated in the SAPTA Prevention Call that occurs between the state and the coalitions each
	month. On July 9, the Youth coalition meeting was held.
	On July 12, the PACT Deputy Director and Deputy Director met again to discuss needed changes to the budget and scope of work.
	On August 12, the PACT Executive Director and Deputy Director participated in the SAPTA Prevention Call that occurs between the state and the coalitions each month.
	On September 5, the Grants Manager arranged a meeting to discuss the promotion plan for the Legislative Update on September 18 among PACT staff. A total of five staff attended.
	On September 9, the PACT Executive Director and Deputy Director participated in the SAPTA Prevention Call that occurs between the state and the coalitions each month.
	Marijuana Campaign: Southern Nevada Health District staff and the Behavioral Change Agency held eight planning meetings to determine the goals and objectives of the project. It was determined that a social brand should be created that teens will identify with to deliver our substance-free (marijuana/ cannabis free) message.
Involvement of public and private service systems in planning	During the April 1, 2019 - June 30, 2019 time period, JTNN (Join Together Northern Nevada, Washoe County) facilitated the Washoe County Drug Endangered Children Alliance. The DEC Alliance continued to work on developing a local DEC protocol with language from SB80 – the Handle With Care bill. Staff met with the Sparks PD Chief, Reno PD Deputy Chief, Reno Mayor, and Washoe County Sheriff to secure partnerships for implementing Handle with Care.
	Staff began recruiting parents to participate in the first Parent Project program at JTNN.
	Staff updated the beverage server training curriculum and submitted to the state for re-certification.
	Staff developed a physician education program to be delivered to prescribers and other healthcare providers. Topics include alcohol and marijuana impact on youth.
	Three public service announcements and two billboards were created for distribution.

Involvement of put service systems in		During the July 1, 2019 - September 29, 2019 time period, the Jayda youth team held meetings to plan an open house for the school, a parent letter, a social media page for the students, and a holiday party. Creating a marijuana presentation was also discussed during the quarter.

Describe any data gaps you identified related to the disparate or subpopulation(s). Please be specific. If no data gaps currently exist, please enter "n/a" for not applicable.

For any data gaps described above, please explain how you are addressing the gaps. If you had none, please enter "n/a" for not applicable.

Access to Prevention Efforts

Briefly describe the specific strategies implemented to address behavioral health disparities in your high-need community(ies). Include any information on how you, as the grantee, are supporting its/their progress.

If you used a planning model, please briefly describe the model you are using and how you are ensuring your high-need community(ies) integrated it into its/their approach to addressing behavioral health disparities. If you did not use a planning model, enter "n/a" for not applicable. Note: you will report general updates in the Implementation section, anything reported here should be specific to behavioral health disparities.

From the list below, please select the strategies you developed and implemented to ensure that your high-need communities understand and are using the National CLAS Standards.

How are communities documenting and monitoring use of National CLAS Standards?

Use and Reach of Prevention Efforts

How do you monitor the efforts related to addressing behavioral health disparities at the community level?

What are your data collection processes related to behavioral health disparities data?

How are you determining the accuracy of numbers directly served and numbers indirectly reached for and highneed community? How are you helping communities use their data to address the identified behavioral health disparities?

Outcomes of Prevention Efforts

How are you monitoring outcomes related to disparate subpopulations at the community level?

Describe how you use outcome data related to disparate subpopulations to evaluate processes and/or make programmatic adjustments to address your identified priorities and issues.

Describe other ways that you use programmatic data to demonstrate the impact of your efforts on reducing behavioral health disparities.

Accomplishments

Name	Description
ALL: Ensured the involvement of population(s) experiencing substance abuse-related behavioral health	During the January 1, 2019 - March 31, 2019 time period, the Nye Communities Coalition (Esmeralda, Lincoln, Nye) accomplished the following:
disparities in assessment, capacity building, planning, implementation, evaluation, or dissemination efforts	The NyECC Director and Frontier Coordinator are making efforts to engage outlying rural frontier communities across the three counties. Through these partnerships, these rural frontier communities can be best served with this project.
	Translation services are available by NyECC for individuals who are Spanish speaking or hearing impaired.
ASSESSMENT: Defined disparate population(s) (race, ethnicity, sex, LGBTQ)	During the January 1, 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) used CHWs (Community Health Workers) to identify and assist community members overcome health disparities.
IMPLEMENTATION: Ensured that implemented interventions were specific to behavioral health disparities of disparate and high-need subpopulation(s)	During the April 1, 2019 - June 30, 2019 time period, Partnership Carson City (PCC) connected with the Latino regarding substance education through partnerships with Latino groups in Carson City.
IMPLEMENTATION: Increased access to substance abuse prevention services to disparate population(s) (race, ethnicity, SES, other)	During the January 1, 2019 - March 31, 2019 time period, Churchill Community Coalition disseminated I Am One of 365 marijuana and other drug prevention education at the Fallon Paiute Tribal Clinic to 40 participants. In addition, Defining the Norm information was disseminated to 80 persons at the New Life Center. The program features adult education on youth alcohol and marijuana use prevention, and counteract the youth rite of passage associated with youth use of these substances.
IMPLEMENTATION: Increased access to substance abuse prevention services to disparate population(s) (race, ethnicity, SES, other)	During the January 1, 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) used Community Health Workers to identify health disparities.

IMPLEMENTATION: Increased access to substance abuse prevention services to disparate population(s) (race, ethnicity, SES, other)	During the January 1, 2019 - March 31, 2019 time period, PACE Coalition used Bilingual Community Health worker staff to provide assistance to the Hispanic population. PACE Board Members with diverse backgrounds made great contributions to serving disparate populations. Other member includes representatives that are school social workers, DUI school instructors and law enforcement. Increased outreach to outlying areas to include Native American communities who requested information and trainings. Brochures were distributed during meetings and community events. Spanish language materials are available on site and in the Resource Library. PACE has again partnered with the White Ribbon Campaign for 2018-2019 to provide outreach and information on gender based domestic violence network in the Hispanic community. Increased activities with veteran's services in the three counties serving the veteran population when and where it is best suited for them.
IMPLEMENTATION: Increased availability of substance abuse prevention services to disparate population(s) (race, ethnicity, sex, LGBTQ)	During the April 1, 2019 - June 30, 2019 time period, the PACE Coalition (Elko, Eureka, White Pine) had bilingual Community Health worker staff on site. Spanish language materials are available on the web site and in the Coalition Resource Library. A total of 14 translations services were provided. PACE has again partnered with White Ribbon Campaign for 2018-2019 providing outreach and information on gender based domestic violence network in the Hispanic community. Increased programs and activities serving the veteran population when and where it is best suited for this group. : Bilingual Community Health worker staff provides assistance to Hispanic population. PACE board members with diverse backgrounds make great contributions to serving disparate populations. Other members includes representatives that are school Social Workers, DUI school instructors and law enforcement. Increased outreach to outlying areas including Native American communities who requested information and trainings. Brochures are distributed during meetings and community events.

pa a	Developed effective stake artnerships (e.g., betwee gencies, and community rganizations)	en state	 During the April 1, 2019 - June 30, 2019 time period, JTNN (Join Together Northern Nevada, Washoe County) staff attended the Washoe County Community Policing event to provide information about marijuana. JTNN sponsored Jermaine Galloway, Tall Cop, to present information to community members about marijuana and drug trends. JTNN continues to facilitate an Environmental Strategies meeting and Marijuana Committee. The Environmental Strategies meeting is a place at which compliance issues are reviewed. Two compliance checks were completed during this period. During May 19 businesses were checked with four failures. All failing establishments received a follow-up visit. In June 19 business were checked with five failures. All failing establishments received a follow-up visit. In addition, JTNN worked with the Reno Police Department to visit an establishment that was allowing high school students into the bar on Thursday evenings. Law enforcement spoke with the owner, and the owner is making small steps to change business practices. The Marijuana Committee has created a subcommittee to focus on maternal marijuana use and the impact on babies and youth.

Developed effective stakeholder partnerships (e.g., between state agencies, and community and partner organizations)	During the July 1, 2019 - September 29, 2019 time period. PACT Coalition (Clark) PACT disseminated 13 social media posts across both Facebook and Twitter that related to alcohol, marijuana, and stimulants. To increase reach, Facebook posts were boosted. Overall, 2,309 people were reached with 114 engaging with the prevention posts. On August 3, the PACT Grants Coordinator attended a Back to School Resource Fair at the Silver Mesa Community Center. Information, pamphlets and flyers regarding marijuana, alcohol, and stimulants were distributed to 500 individuals. On August 14, . the PACT Deputy Director and Training Manager worked a prevention booth containing alcohol, marijuana, and stimulant prevention materials at the Sig Rogich Middle School open house. Over 1,000 parents attended. 100 flyers promoted for the Youth Team were distributed to parents and middle school youth.
	On September 21, the PACT Training Manager and Deputy Director attended the Foundation for Recovery Rally. A prevention booth was hosted. PACT provided pamphlets and prevention information on marijuana, alcohol, and stimulants. About 300 people were reached. Throughout the quarter, PACT continued the Taxi Ads Campaign with the "legal doesn't mean safe" campaign. The campaign focuses on reducing the risk associated with legal substances such as alcohol, marijuana and prescription stimulants and youth. Youth report low perception of harm regarding these substances. Marijuana Campaign: Using data from Southern Nevada teens who complete the I-Base survey, SNHD staff and contractor Rescue, The Behavioral Change Agency created culturally and linguistically tailored media messages to reach the peer crowd most at risk. This media includes a peer crowd introduction video, an educational message package for use on Instagram and Facebook. In
Grantee-level interventions being implemented	 addition, a webpage (vergenv.org) was created and launched. During the April 1, 2019 - June 30 time period, Partnership Carson City (PCC) implemented several strategies. On April12, 15 people at four locations were randomly asked to purchase alcohol for minors through a community awareness program known as Shoulder Taps. No alcohol was purchased for minors and no citations were issued. This effort is in partnership with Carson City Sheriff's Office. This community strategy is evidence based and is a way to compile and collect data on community awareness and understanding of local ordinances. On April 2, the Prevention Plus marijuana presentation was offered to Carson High School students. This is a mandated program provided by PCC to Carson High School athletes and their parents for the participation in extracurricular activities. Students participating in extracurricular activities must attend the Prevention Plus presentation.

Grantee-level interventions being implemented	 During the April 1, 2019 - June 30, 2019 time period, the PACE Coalition (Elko, Eureka, White Pine) continued raising awareness and collaboration with other agencies and organizations regarding underage drinking and marijuana use in the catchment area: o Approximately 80 Alcohol, Underage drinking, and Marijuana Messages One Permanent Banner on PACE Website (Over 100,000 hits) 21 Facebook posts on PACE page One Radio ad in Elko Seven Billboards throughout the three-county area Four web-based ads through Chamber of Commerce member's register with a monthly average of 350,000 member exposures with 600 unique exposures. 14 print ads on Website- 2nd quarter: 139,047 hits Ely Health Fair, Elko Youth Transition Summit, Southside Spring Festival, Northside Health Fair, and Flagview Carnival-Approximately 1,350 attendees exposed to messaging
Grantee-level interventions being implemented	During the Januaru 1, 2019 - March 31, 2019 time period, PACE Coalition (Elko, Eureka, White Pine) continued raising awareness and collaboration with other agencies and organizations on concerns with underage drinking and marijuana in the service area: o A total of 41 Alcohol, Underage drinking, and Marijuana Messages 1 Permanent Banner on PACE Website (113,281 hits) 21 Facebook posts on PACE page 2 Radio ads on radio in Elko 8 Billboards throughout tri-county area 5 web-based ads including ones through Chamber of Commerce member's register with a monthly average of 295,208 member exposures with 450 unique exposures. 4 print ads o Website- 1st quarter: 113,281 hits o Ruby Radio Health and Fitness Fair-Approximately 1,400 attendees exposed to messaging o Carlin STEM Fair-222 attendees exposed to messaging. o Elko County STEM Fair-Approximately 400 attendees exposed to messaging o Sage Elementary Health Fair-Approximately 200 attendees exposed to messaging
Grantee-level interventions being implemented	During the January 1, 2019 - March 31, 2019 time period, Churchill Community Coalition staff offered the Too Good For Drugs program at three elementary schools in the service area. The Morning Mindfulness program was also offered. Pre- and post surveys were conducted in the upper grades. Approximately 200 students were reached through the eight lessons.
Grantee-level interventions being implemented	During the January 1, 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) has hosted several Stand Tall youth meetings during this quarter and has taken youth to the legislature to discuss with legislators the importance of regulation on vaping and tobacco in Nevada. HCC has participated in the Lyon County Opioid summit, focusing on the root causes of opioid use and how to address them Barriers: Our main barrier has been getting this work accomplished without funding.
Specific community-level interventions being implemented	During the January 1, 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) hosted several Stand Tall youth meetings. Five groups have started in the service area, and meet weekly receiving educational sessions, prevention and knowledge on how to avoid licit and illicit drug use. Five groups which include four high school and one middle school are: Fernley High School – 10 meetings with an average student attendance of nine, Silver Stage Middle School eight meetings with an average student attendance of eight, Silver Stage High School seven meetings with an average student attendance of six, and Yerington High School seven meetings with an average student attendance of six.

Evaluation Evaluation Report - Uploaded Document(s) Other Document - Uploaded Document(s) **Accomplishments** Name Description Assess program effectiveness During the April 1, 2019 - June 30, 2019 time period, Partnership Carson City (PCC) used tools to evaluate programs to provide the most accurate information. Assess program effectiveness During the April 1, 2019 - June 30, 2019 time period, the PACE Coalition (Elko, Eureka, White Pine) continued communication with the PFS evaluator retained by the Substance Abuse Prevention and Treatment Agency (SAPTA). Assess program effectiveness During the January 1, 2019 - March 31, 2019 time period, PACE Coalition (Elko, Eureka, White Pine) began communications with the PFS evaluator retained by the Substance Abuse Prevention and Treatment Agency (SAPTA). On-going communication will take place to insure correct program direction. The Churchill Community Coalition began the evaluation of the Too Good For Assess program effectiveness Drugs and the Mindfulness program. Data is being entered in the Coalition's data system for assessment.

Sustainability

Accomplishments

Name	Description During the April 1, 2019 - June 30, 2019 time period, PACE Coalition (Elko, Eureka, White Pine) received Funds for a Healthy Nevada. Additional funding is being sought through Office of Traffic Safety and the STOP Grant. Fee-based Responsible Beverage Server Trainings are offered on a monthly basis and as requested. Wristband ID checks for community events are provided as needed. Fee Collections: PACE is working with other agencies and organizations to share resources and to find other avenues of sustainability and to expand to other areas. Increasing awareness of the Coalition's mission and vision in other areas. Fees: Responsible Beverage Server Training: \$175.00. Wristband ID checks: \$1,575.00. Donations: Total: \$1,930.00. Donations, \$750.00. Newmont Mining \$1,180.00.				
Leveraging funding and other resources to ensure sustainability of efforts					
Leveraging funding and other resources to ensure sustainability of efforts	During the January 1, 2019 - March 31, 2019 time period, Churchill Community Coalition's Evaluation & Sustainability Subcommittee is finalizing a sustainability plan, targeting community organizations/groups, foundations, local businesses, personal donations, and events.				
Leveraging funding and other resources to ensure sustainability of efforts	During the January 1, 2019 - March 31, 2019 time period, Healthy Communities Coalition (Lyon, Mineral, Storey) HCC leveraged partnerships with organizations to reduce costs and increase access to programs. Additionally, HCC works to braid funding from various funding sources to support our projects such that, if funding is lost, the programs are able to continue functioning.				
Leveraging funding and other resources to ensure sustainability of efforts	PACE Coalition (Elko, Eureka, White Pine) is receiving Funds for a Healthy Nevada funding for 2018-2019. Additional funding is being sought through Office of Traffic Safety and the STOP Grant. Fee-based Responsible Beverage Server Trainings is offered on a monthly basis and as requested. Wristband II checks for community events are provided as needed. Fees: PACE is working with other agencies and organizations to share resources and to look for other avenues of sustainability and to expand to other areas. Involvement with other agencies and organizations and sharing of resources. Increasing awareness of the coalition's mission and vision in other areas. Fees: Responsible Beverage Server Training: \$250.00. Wristband ID checks: \$137.50. Donations: Total: \$1,436.00. Broken down: Donations, \$26.00. Newmont \$14,100.00.				
Other - Coalition Staff Training	During the January 1, 2019 - March 31, 2019 quarter, the NyECC (Esmeralda, Lincoln, Nye) focused on maintaining relationships through coalition process, community building and community meetings. The maintenance of relationships is especially important in rural frontier communities that do not have a NyECC staff placed in the community. Consistent, regular engagement with these partners is crucial to successful programming.

Survey Items: During your I	ife, how many times have you used marijuana?

Specified Substance: Other - Marijuana

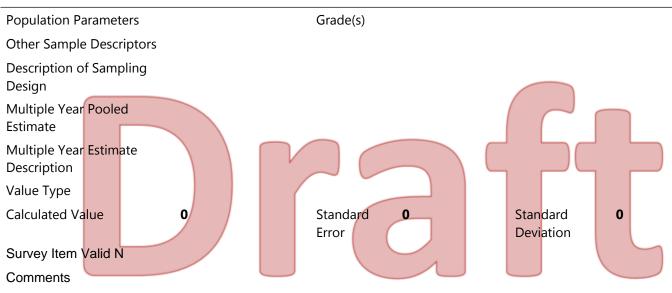

PFS Required Outcome Measure: Other - Lifetime

Are you reporting an exact PFS Required Outcome, an approved substitute PFS Required Outcome, or neither: **Exact PFS Required Outcome Measure**

Response Options: **0 times - 63.0% Due to the reporting on table that information is not broken out in correlation to the way the question was asked.** No complete breakdowns were provided.

Reported Outcome Description: This is a statewide result of 2017 YRBS survey data for high school students.

Interview Type	Baseline		
Data Collection Date			
Population Parameters		Age Range Minimum	Age Range Maximum

Survey Items: During your life, how many times have you used methamphetamines (also called speed, crystal, crank, or ice)?

Specified Substance: Other - Methamphetamines

PFS Required Outcome Measure: Other - Lifetime

Are you reporting an exact PFS Required Outcome, an approved substitute PFS Required Outcome, or neither: **Exact PFS Required Outcome Measure**

Response Options: 0 times - 96.7% 1 or 2 times - 1.7% 3 to 9 times - .5% 10 to 19 times - .5% 20 to 39 times - .2% 40 or more times - .4%

Reported Outcome Description: This is a statewide result of the 2017 YRBS survey data for high school students.
