Detoxification Technicians Certification Procedure

Updated: 07/15/2022 SC

1. Applicant applies for detoxification certification through ALiS (<https://nvsapta.aithent.com/LoginSapta.aspx>) – submits payment of \$25.

A screenshot of the ALiS login page. It features a "Forgot Login/Password" link and a "Login" button. Below this, a message states "Password is case sensitive." There is a section for existing licensees to "Register Here" and a section for "NEW APPLICANTS APPLY HERE" with links for "Application For State Prevention Certification", "Application For State Treatment Certification", and "Application For Detoxification Certification" (the latter is highlighted in yellow). At the bottom, there is a link "To Search for a licensee : click here".

2. Applicant completes **paper application** for detoxification technician found on the SAPTA certification website: <https://dphh.nv.gov/Programs/ClinicalSAPTA/dta/Partners/Certification/CertificationHome/>) and attaches document to ALiS, with high school diploma (or equivalent) and CPR card.
3. **Provider agency must submit documentation that they've conducted a background check** and have deemed this individual eligible to work for their entity. If the individual has a felony, the agency must provide justification for hiring of the individual. Utilize NAC449.822 for list of disqualifying convictions. (See attached criteria).
4. Necessary CASAT training/detox technician certificate must be uploaded.
5. Certification Lead will work with agencies directly regarding their applications for detox technicians if more information is needed.
