

# HIV MODERNIZATION

**A person found guilty of transmitting HIV is only guilty of a misdemeanor.**

- NRS 201.358: Engaging in sex work while HIV positive as a felony repealed in 2021.
  - Failing to use protection alone is not intentional transmission.
- Transmission likelihood is evaluated by current medical and epidemiological evidence.
- NRS 201.356: Mandatory HIV testing after arrest for solicitation or engaging unlawful sex work repealed in 2021.

---

## **Exposed? Know your rights.**

- If possible, speak with a designated health care officer about your exposure.
  - File a petition in court so it can promptly determine your likelihood of exposure.
- An investigated person's identity and medical information must remain confidential.
