If the alleged victim or a witness to a crime alleges that the crime involved the sexual penetration of the victim's body, the health authority shall perform the tests set forth in subsection 2 as soon as practicable after the arrest of the person alleged to have committed the crime, but not later than 72 hours after the person is charged with the crime by indictment or information, unless the person alleged to have committed the crime is a child who will be adjudicated in juvenile court and then not later than 72 hours after the petition is filed with the juvenile court alleging that the child is delinquent for committing such an act.

2. If the health authority is required to perform tests pursuant to subsection 1, it must test a specimen obtained from the arrested person for exposure to the human immunodeficiency virus and any commonly contracted sexually transmitted disease, regardless of whether the person or, if the person is a child, the parent or guardian of the child consents to providing the specimen.
