HOW IT WORKS

STEP 1

Fill Out E-Document

Patients or Staff can assist patients to fill out their Personal Health Information (PHI) on our app or web portal.

STEP 2

Join a Video Call

With a touch of a button, your patients can have a live consult with you

HOW IT WORKS

HOW IT WORKS

STEP 3

Talk to Your Patients

Patients are in touch with you in minutes

- We do not take the place of a regular dentist
- We refer patients to a local dentist for follow up care
- e-Prescriptions can be given at the discretion of the dentist
 - Teledentistry.com has a no opioid prescription policy

Value Proposition to Dentists **DURING COVID CRISIS**

Stay in touch
with your
patient now

- Maintain communication in a HIPAA Secure environment
- Transition yourself and practice for future patient expectations with regards to telehealth

Bill for services

- As per ADA guidance, teledentistry consults can now be billed under D0140 codes
- Maintain a revenue stream even when you are closed due to COVID

Team
engagement

- Keep your front desk active and generating revenue during shutdown
- Engage with your team members and patients in a meaningful way

Follow up on
temporary crowns
placed pre covid
Help your patients
if they are in pain

Optional 24/7 Call-
Center and Dentist
Network to Handle
Overflow Calls

Value Proposition to Dentists Post COVID

High ROI Marketing

- Highly targeted patient capture
- High ROI service seamlessly integrated into marketing efforts

After-hour Patient Management

- Customer retention by offering existing patients emergency/urgent care
- Relationship building by being accessible to patients

Schedule Optimization

- Open up schedule by moving routine appointments to the Teledentistry.com platform
- Fill up empty slots in schedule with high value procedures

Medicaid & Private Insurance VAB Contracts

24/7 Call-Center and Dentist Network to Handle Overflow Calls
