MANAGEMENT and PUBLIC HEALTH LEADERSHIP EXPERIENCE

- **Managed budgets of more than \$5 million**, which included federal and state grants, contracts, and foundation monies.
- **Managed a staff of 8 personnel** as well as interns and pre and postdoctoral students.
- **Oversaw the management of a variety of statewide public health programs.**
- **Developed, formatted and manage websites** for non-profit organizations.
- **Facilitated the establishment of non-profit (501(c)3) status** for statewide coalitions.
- **Write press releases and edit newsletters** for national and state organizations.
- **Serve as a liaison with funders, partners and membership** of non-profit organizations.
- **Manage social media outlets** including Facebook, Twitter, and dental health blogs.

- **Principle Investigator for four federal grants** totaling more than \$3 million dollars focused on implementing community-based prevention programs, expanding access to care and workforce development.
- **Principal Investigator for foundation grants** focused on implementing programs targeted at high-need populations.
- **Initiated and implemented 13 statewide surveys.**
- **Planned, calibrated and implemented a statewide assessment** of seniors living in the community and long-term care.
- **Developed a statewide electronic reporting system** for public health professionals.
- **Provided expertise and technical assistance to 351 boards of health and community health center dental programs**
- **Initiated and monitored the upgrade of a surveillance system** for 140 fluoridated communities serving 4 million residents, as well as the **implementation of trainings** for water operators in collaboration with the Massachusetts Department of Environmental Protection.
- **Initiated and directly oversaw the development of a dental clinic** serving more than 3,000 developmentally disabled adults.
- **Developed and managed** statewide school-based prevention program targeting more than 15,000 high-risk school-aged children in 13 communities.
- **Initiated, developed and managed a comprehensive vision care and dental program serving seniors** in Boston's low income housing developments in collaboration with a local community health center.
- **Initiated and facilitated multi-disciplinary working groups** which developed regulations for mobile and portable dental programs.
- **Developed drug control regulations** to allow non-licensed persons to administer fluoride varnish outside dental settings.
- **Initiated, developed and implemented a took-kit for medical providers** caring for children 0-5 years of age with special needs, which was utilized in at least 5 other states.
- **Initiated, developed and implemented a training (in-office and web-based) for medical providers working in community health centers** to administer fluoride varnish; more than 600 providers received the training.
- **Developed a web-based toolkit.**
- **Managed the statewide school fluoride mouthrinse program** serving 52,000 children annually in more than 264 schools.

TEACHING and LEADERSHP EXPERIENCE

Educated and mentored students at all levels - high school, undergraduate, graduate, and professional, as well as public health residency programs. Experienced with classroom and online curriculum delivery using innovative pedagogical methods.

- **Developed and taught graduate-level courses** in global healthcare, leadership in public health, interprofessional education, program planning, social and behavioral science.
- **Developed and taught undergraduate courses** in public health, research methods.
- **Coordinated and managed graduate-level field studies/internship experiences** satisfying accreditation standards.
- **Developed and supported partnerships** with organizations, agencies, and institutions to serve as internship sites following established university policies.

- **Assigned students' earned grades** and actively communicated with online programming applications.
- **Advised graduate students** while writing executive manuscripts.
- **Advised and resolved student challenges.**
- **Assured accreditation standards** are met through course delivery.
- **Managed course development and revisions** within the prescribed curriculum.
- **Collaboratively developed program policies and guidelines.**
- **Promoted enrollment** to the program and provide guidance on career trajectories.
- **Served on school and university committees.**
