 Developed and executed science lessons for a 4th grade class once per week for five months; prepared lessons, delivered lectures, designed and executed experiments and conducted tests in accordance with the Washoe County school district guidelines.

[Research]

- **ADEA Academic Dental Careers Fellowship Research Project-** *UCSF School of Dentistry* 2016-2018
 - **Mentor:** Dr. Jennifer Perkins DDS, MD
 “Self-recorded video with peer, self and expert review is effective for teaching informed consent”
 Aims: Evaluate if new self-recorded video with peer-peer, self and faculty review teaching modality is effective, preferred and/or perceived as applicable to clinical scenarios.
 Developed and tested a teaching platform where students are paired and required to self-record an informed consent scenario. After reviewing videos recorded by their peers; students are able to self-reflect and receive faculty feedback. Rankings are determined based upon scores and high scored videos are utilized as references. (Planning to publish in Fall 2018)
 - 3/2017- Long Beach, CA. Poster Session: American Dental Education Association Annual Session

- **Research Assistant: Department of Orofacial Sciences- UCSF School of Dentistry** 2016-2017
 - **Mentor:** Dr. Andrew Jheon DDS, PhD
 - Work on subsequent related research topics utilizing samples, methods and data obtained during my fellowship; train new fellows in lab procedures and protocols. Collect final data and results for expected publication in 2018-2019

- **UCSF Summer Research Fellow- UCSF School of Dentistry** 2015-2016
 - **Mentor:** Dr. Andrew Jheon DDS PhD

“Differential Gene Expression in the Periodontal Ligament of the Mouse Molar and Incisor”.

Basic orthodontics research to inquire differentially expressed genes in the mouse incisor v mouse molar. Utilize q-PCR and RNA sequencing to identify genes of interest within the PDL that may affect tooth movement.

 - 10/2015 Poster Session at UCSF Research in Clinical Excellence Day- University of California, San Francisco
 - 4/2016 Poster Session at American Association for Dental Research Annual Session- Los Angeles, California
 - 4/2016 Poster Session at American Student Dental Association Annual Session- Dallas, Texas
 -

[Academic and Professional Experience]

- **Minimally Invasive Implantology Continuing Education- El Dorado Hills, CA** 2019-Present
 - Dr. Je-won Wang D.D.S., M.S

Learn the concepts and principles about placing implants both with a flap and flapless in order to minimize damage to surrounding bone and tissue. Courses include learning how to place and restore tissue level and bone level implants, perform sinus lifts, place and restore locator dentures as well as hybridges.
