

Your story, your voice. Helping future moms and babies in Nevada.

Throughout Nevada, new moms are helping each other by completing the Nevada PRAMS Survey. The survey gathers information about your experience before, during and after pregnancy. If you receive a Nevada PRAMS Survey in the mail, please take the time to share your story. Responses are confidential and will help improve the health and well-being of women and babies in Nevada.

Together we can help women in Nevada have healthier pregnancies and babies!
