

University of Nevada, Reno

CASAT entered a work order with the Division of Public and Behavioral Health, Problem Gambling Bureau of Behavioral Health and Wellness and Prevention to meet the following objectives by June 31, 2022.

1. Development of Clinical Supervision Curriculum to prepare certified problem gambling counselors to provide clinical supervising of problem gambling to problem gambling counselors interns.

- Meeting set with the Board of Examiners on Friday Sept 3rd to discuss updates to the current curriculum as well as targeting marketing to those counselors who meet the requirements to apply to become clinical supervisors. I will have additional updates after the Sept 3, 2021 meeting.

2. Enhance existing workforce and emerging workforce telehealth skills by providing a 6-hour Ethics for Telehealth Training

- CASAT Learning will send the marketing announcement as soon as the training details are confirmed.

3. Provide ongoing technical support and customer service for the online problem gambling readiness course

- As of Sept 2, 2021, 129 people have registered for the 30- hour problem gambling intern readiness course. 2 people have completed the course and received certificates of completion. CASAT Learning staff routinely reach out to the folks who have registered but not completed the course to engage them in assistance if needed.
