# The Plan's Plan: Section IV

---

This Plan was developed to provide a high level summary of improvement efforts that will be implemented or explored over the plan's two year period. This Plan will be used as a roadmap for DHHS and the ACPG to develop a work plan that will detail the action steps to be taken to achieve the goals and guide initiative development from one point to another.

## Problem Gambling Services Strategic Plan: FY2022 & FY2023 v.0

### IV. Goals, Activities, Enhancements

#### Improving DHHS Funded Problem Gambling Services

This strategic plan follows the problem gambling system needs assessment that was completed in 2021 and represents a continuation of previous strategic planning processes. Information gathered during the needs assessment and solution finding phases were categorized into six domains that corresponded with the DHHS Problem Gambling Services system's historical conceptualization. These domains represent program components, funding designation categories, and service procurement categories. These domains are:

- A. Administrative Operations
- B. Information Management
- C. Prevention and Health Promotion
- D. Treatment
- E. Workforce Development
- F. Research

Each of the above problem gambling service components is accompanied with a goal followed by a list of enhancement activities intended to achieve the stated goal. The goals and enhancement activities outlined below conform to the ACPG's vision and mission, and the Plan's framework, guiding principles, and logic model as previously described.
