

**The Division of Public and Behavioral Health
in Cooperation with
The Division of Emergency Management
Presents**

**ICS-402
ICS Overview for Executives/Senior Officials**

This class will cover the Incident Command System and Emergency Operations Centers. In particular, the role that public health and the healthcare system will play in a large or small scale emergency. The class will be 12 hours long over the course of 2 days. There will be a tabletop exercise on the second day.

Who Should Attend

All those who are or could be decision makers or assign personnel during a public health or healthcare system emergency.

Prerequisite for this course is ICS 100. Recommended: ICS 200 and ICS 700. These courses are available at <https://training.fema.gov/is/>
