## Informational Notice

**Date:** June 24, 2021

**Topic:** Licensure requirements needed to engage in Fluoroscopy.

**Contact:** John Follette, Manager, Radiation Control Program

**To:** All persons engaged in or applying to engage in Fluoroscopy in the State of Nevada

---

**Background:** This Informational Notice identifies the recent changes to the [Nevada Revised Statutes \(NRS\) Chapter 653](#) licensure and registration requirements for persons engaging in Fluoroscopy in the State of Nevada. Specifically addressed are the credentials the Division of Public and Behavioral Health ("Division") will now accept to issue licensure or registration to engage in Fluoroscopy. Below are the various forms of licensure or registration that the Division may issue.

### **Requirements to engage in Fluoroscopy**

- Individuals who hold recognized credentials in Therapy (ARRT "T") are eligible for a license to engage in Fluoroscopy pursuant to [NRS 653.640](#).
- Individuals who hold recognized credentials in Radiology (ARRT "R") are eligible for a license to engage in Fluoroscopy pursuant to [NRS 653.640](#).
- Individuals may submit documentation of other appropriate training or another appropriate credential such as education, training, and certifications obtained outside of the United States for consideration by the Division to determine eligibility for a license to engage in Fluoroscopy pursuant to [NRS 653.640](#).
- The holder of a license or limited license who registers with the Division to engage in Fluoroscopy to qualify for certification may be issued a registration certificate displaying Fluoroscopy as the scope of practice pursuant to [NRS 653.610](#).
- The Division may issue a temporary student license to a person who is enrolled in a program to qualify for any certification required to obtain a license or limited license pursuant to [NRS 653.610](#).
- Individuals engaged in Fluoroscopy prior to 1/1/2020 without credentials are eligible to register with the Division under the grandfathering provision. Applicants may be issued a registration certificate displaying Fluoroscopy "G" as the scope of practice, with the "G" standing for grandfathered pursuant to [NRS 653.620](#).

- Individuals engaged in Fluoroscopy in the Armed Forces or in another state may submit documentation to the Division for licensure by endorsement in Nevada. Endorsement is defined in this section to mean the reciprocal recognition of a license, certificate, or other credential by the State of Nevada. The Division has reciprocal authority and may grant reciprocity upon application review to issue a license or limited license to engage in Fluoroscopy pursuant to [NRS 653.530](#) and [NRS 653.540](#).

All persons applying for licensure or registration must submit a completed application form, all supporting documentation, and non-refundable fee as applicable to the Radiation Control Program. The RCP website and forms are linked [here](#).

For more information, contact the Radiation Control Program at (775) 687-7550 from 8 a.m. to 5 p.m. Monday through Friday; or email questions to [radiationcontrolprogram@health.nv.gov](mailto:radiationcontrolprogram@health.nv.gov)
