

It is never a crime if you transmit HIV to a partner if:

- 1) You use protection e.g. condoms
- 2) You communicate your status and your partner's consents.

Condoms, communication and consent.

Undetectable = Untransmittable (U = U) and Reduce the Risk.

There must be a high probability for HIV transmission for it to be a crime. If you're undetectable, there is not a high probability for HIV transmission

Transmission of HIV is no longer a felony in Nevada. In an unlikely event of charges and conviction, it is a misdemeanor.

HIV MODERNIZATION
